CHAPTER X

RICHARD BURKE'S STORY.

"I think that is almost impossible,"

she said, eagerly. "If Mr. Douglas is

I was not sleepy. Besides, I wanted to see my little girl. Did I dream that a great many people told me that in

prudent to give this reviewer a wide margin." "Yes," replied the poet, "it appears to be a disputed passage."

CHAS. STARK
52 CHURCH ST., TORONTO.

A TALE OF CANADIAN BACKWOODS LIFE

[illegible]

From which the intelligent reader will infer that that old Sir Peters did not belong to the modern materialistic school, but on the contrary, he was filled by his mighty faith in the power of the supernatural. He had seen the children in the settlement avoided him as they would the devil.

During what he was not not strange, the Sir Peters was induced to enter the mill after the occurrence of the murder. He would cheerfully undertake any kind of work, and he was not afraid to go down in the mill. Dick Hart, however, was made of different material. In matters little to him whether he was inside or outside the mill, he was not at all concerned. He was neither man nor the Evil Spirit. He even enjoyed bearing other people relating stories of the supernatural, and so now, after the occurrence of the murder, he was not what they might expect, he leaned back in his easy seat, puffed little clouds of tobacco smoke from his head for comfort, and with a wink, he said to the company,

Sudden silence fell upon all, and no one seemed in a hurry to break it. This intense life within, served but to give emphasis to the turmoil of the elements outside of the house, which seemed to grow more violent as the evening wore away. Every frigate seemed stronger and more resolute than its predecessor.

(TO BE CONTINUED.)

A seal plush bonnet has the brim bordered with natural beaver.

The *Western Rural* has some very good ideas on the treatment of animals. Most of these can be carried out before they break out. A deal of the work that veterinarians called upon to perform is really needless. A diseased condition of animal life is caused by some violation of nature's laws. The great study of the people should be how to cure diseases so much as how to prevent them. In the case of horses, horses seemed to require much less doctoring than at present. The single cow that is treated almost like one of the family is hardly ever sick. Animal life is easy to maintain, if those who have stock will use judgment and care.

7) Νομός: 1. πτυχή: 1. Γράμμα:

The famous Lorillard farm in New Jersey contains 1000 acres. The barn has stalls for 56 horses; 40 hands and 15 teams are employed in the farm work. In one building are 200 stalls for cattle. The piggeries hold 1000 pigs and 300 hogs. The corn crib holds 10,000 bushels of shelled corn. The stable in which the yearlings are housed contains 68 box stalls, and the centre of the farm is divided into three sections of the building is covered with glass, and affords a dry place

The *Western Rural* has a

ideas of the treatment of animal disease. Most of these diseases can be cured if the feeding-box before they break out. A deal of the work that veterinarians are called upon to perform is really necessary to a diseased condition of animal life is produced by some violation of nature's law. The great study of the people should be how to cure diseases so much as how to prevent them. In the older times cattle and horses seemed to require much less doing than at present. The single cow of a day that is treated almost like one of a family is hardly ever sick. Animal life is easy to maintain, if those who have stock will use judgment and care.

MACDONALD.

From Our Own Correspondent.

Nowadays fast going by.

Miss Joyce, of Fitch, is visiting at her uncle's, Mr. John Macdonald, on Christmas.

The Sabbath School Jubilee on Christmas evening was a grand success. \$35 was taken at the door though the admission fee was only 10c.

Miss Mary Clark, of Belleville, is spending her holidays at her worthy postmaster's, Mr. H. Goodfellow.

Times are pretty lively here at present over the election of councillors for North Frederickburg, Messrs. John Caranahan and Ervin Parks are candidates for the Reeve'ship, and Messrs. Chas. Lloyd and Thos. German for Deputy Reeve.

Mr. Hiram Parks, of Deseronto, spent a few days last week at Mr. W. R. Miller's.

Miss Libbie Gray, of Bath, and Miss Nellie Thistleworth, of Napanee, are the guests of Mr. John McWain.

SHANNONVILLE.

(From Our Own Correspondent.)

Miss G. Lake has returned home having spent a month pleasantly in Toronto.

A teaming-out under the auspices of the Methodist Church will be held at the Masonic Hall on Wednesday evening, Jan 13th, the proceeds to be in aid of the parsonage fund.

The Christmas Tree and Concert under the auspices of the Methodist Sabbath School held on the evening of the 23rd was a decided success notwithstanding the inclemency of the weather. After the gifts were distributed to the children, Mr. Geo. Honey on behalf of the school presented Mr. D. Mills, the superintendent, with a beautifully bound photograph album, and Mr. D. Lazier on behalf of the young people presented Mr. Honey, leader of the same, also with a beautiful album and card. The programme then opened with a song by Miss Mabel Robin entitled "Come Birds Come" which was rendered very nicely. Several dialogues, songs and recitations followed and it was closed by the tableau, "There is Poison in the Wine Cup." The proceeds amounted to \$25, which after deducting necessary expenses, will be appropriated for the benefit of the school.

MELROSE.

From Our Own Correspondent.

On Monday Dec 22nd the nomination of Reeve, Deputy Reeve and councillors took place in the Town Hall. As the Clerk was unable to attend Mr. Chas. Simpkins was appointed in his stead. The nominations for Reeve were Messrs J. C. Hanley, Wm. McLaren, Thos. Deasy and John White. For first deputy, Mr. Frank West, who was elected by acclamation. For second deputy Patrick Nash, John Milligan and Lester Phillips. For Councillors, Lewis Brown, Geo. Munroe, J. C. Meagher, John Egan and Eliza Barber. After addressing the electors, Mr. Deasy and White resigned. Mr. Nash resigned as second deputy and John Egan resigned as councillor. Eliza Barber not being present his mover and seconder withdrew the nomination. The following are the men to be balloted for: For Reeve, J. C. Hanley and Wm. McLaren. For second deputy, John Milligan and Lester Phillips. For Councillors, Lewis Brown, Geo. Munroe and J. C. Meagher.

One evening last week the young people got up a party and went to Mr. Jas. Frazer's who keeps bachelor's hall in the Salem Neighborhood. They had an abundance of oysters and as Don Carlos, of the Moversonian club at Red, furnished the music, it would not naturally be supposed that they had a good time. People were pleased to see Mr. Wesley Reid, of Shannonville, among the guests.

The family of Philip Badgely, a few months ago one of their children died to-day. Tuesday, they buried another who died from the same fatal disease. It is said that the present outbreak was caused by their using torn bed clothing that the other child lay on. It seems strange that they discarded it and it has lain in their drivehouse since. They have the sympathy of the whole neighborhood in their affliction.

READ.

(From Our Own Correspondent.)

Monday last was the all important day of nomination, when the various candidates for municipal bodies appeared before the public. Your old correspondent was not present on the occasion, and regrets exceedingly to learn that he has incurred through no fault of his own, the ire and wrath of one or two more or less important individuals.

Mr. Frank West was returned by acclamation as first deputy Reeve. Messrs. Nash, Phillips and Milligan were nominated for second deputy Reeve. We regret to say that Mr. Nash has retired from the contest. A gentleman who is so well known and so popular will be a loss to the Township. The retirement of Mr. Nash reflects credit upon himself and his friends. Messrs. L. Brown, G. Munroe, J. C. Meagher, John Egan and E. Barber were nominated for Councillors. The two latter have retired. Mr. Hanley gave a full explanation of Township affairs, showing that Tyendinaga never stood in as good a position financially. The debt has been completely wiped out and the rate of taxation lowered since he and his colleagues have been in office. There were several other interesting speeches made on the occasion. Each candidate for municipal honors endeavored to gain the approbation of his constituents. The old Read correspondent, when I saw him, did not seem much broken down under the rather silly insinuations of the Melrose orators.

Miss Annie McHenry has been engaged as teacher for the ensuing year. Messrs. Malone, Callaghan and Murray have arrived from Dakota. Professor Denys who was not present last Sunday owing to professional engagements, will meet the choir on Sunday next as usual.

One day last week as Mr. Wm. McLaughlin was driving to Napanee, a man with a load of dynamite was driving ahead of him when suddenly the engine stopped and a box of the dangerous explosive fell off close to Mr. McLaughlin, but fortunately did not explode. Mr. McLaughlin is a prominent young man and is about to be married, so on all accounts he is to be congratulated on his narrow escape. "Alls well that ends well."

There was a ball at Erinville on Monday evening, and one at Marlbank on Wednesday evening, another at Stoco on Friday evening, and the great social event of the season will be held in Hanley's Hall on the 8th January. Very successful reunions took place at Chatham, where Messrs. McDermott and Mr. James Jordan's. Mr. Hugh McDermott's celebrated mare, the well-known successor to Goldenhilt Maid, made the fastest time on record on the 7th con, between Heffernan's Corner and J. Culhane's, Mr. John Gafney being time-keeper.

Mr. Joseph Walsh, of Cleveland, Ohio, is visiting his relatives for the Christmas holidays. Our friend Joe looks well and seems well pleased with our American cousins.

The Rev. Father Meade we are happy to learn is improving in health.

Miss West, of Belleville, has been visiting her relatives here.

MASONIC INSTALLATION.

At the regular meeting of Craig Lodge, A. F. & A. M., G. R. C., No. 401, the following officers were duly installed by Bro. Rogers Longmore, D. D. G. M., of Prince Edward District, assisted by Bro. C. Z. Perry, P. M., of Napanee, and Bro. R. J. Craig, P. M., and J. P. Sills, P. M., of Deseronto.

Bro. R. Geddis, I. P. M.
Bro. C. Clark, W. M.
A. H. McLaughlin, S. W.
Isaac Allum, J. W.
Rev. R. J. Craig, Chaplain.
W. Stoddart, Trustee.
W. D. McRae, Secy.
G. A. Brown, S. D.
George Gordon, J. D.
Wm. Evans, M. C.
G. W. Wright, I. G.
Bro. W. R. Aylesworth, J. Stewards.
John McCollough, J. Stewards.
Bro. John Gough, Tyler.

After Installation the brothers proceeded to the O'Connor House where a sumptuous repast was provided. After doing ample justice to the good things spread before them, Bro. Clinton proposed the toast, "The Queen and Craft," which was responded to by Bros. Longmore, D.D.G.M., and Perry, P.M., Bro. Longmore made his proud to respond for the Queen and Craft. It was an honor to belong to a country ruled by such an estimable lady. He would base his remarks more particularly on the Craft. After reviewing the history of Masonry from the building of King Solomon's temple down to the present time, he retired by wishing the brethren of Craig Lodge a Happy New Year.

Bro. Perry in his remarks said it was a pleasure to be present, and he felt proud of Craig Lodge which was a branch of Union Lodge.

Bro. Allum then proposed the J. W. toast, "Happy to meet, sorry to part, happy to meet again." After singing "God Save the Queen" the company retired well pleased with the evening's programme.

FAMOUS MEDICINE MEN.

Messrs. Root & Tinker, of New York City, who have published from time to time handsome lithograph portraits of the prominent journalists of the United States and Great Britain, have just issued a very attractive engraving, 22 by 28 inches, of the leading Proprietary Medicine Manufacturers of the United States, including Dr. J. C. Ayer, C. A. Hood, Dr. Hostetter of "Hostetter's Bitters," John Ridge of "Merchant's Gargling Oil," Mr. Scott of "Scott's Emulsion," Dr. J. H. Schenck, H. B. Bucklen of "Electric Bitters," Mr. Powell of "Iron Bitters," Dr. Tatt, Dr. Brandreth of "Brandreth's Pills," and H. H. Warner of "Warner's Safe Cure" and "Tippencanoe" fame.

We doubt if a more attractive looking group of eleven men could be got together from any walk of life. As is quite appropriate, the central figure is H. H. Warner, the background of whose vignette is his trade mark of an iron safe, inscribed with the names of the famous Warner's Safe Remedies. Mr. Warner is the most prominent as well as the most successful proprietary medicine manufacturer in the country has yet produced, and his seal in the prosecution of his business grew out of the fact, in large measure, that he himself, when given up to die as incurable of an extreme kidney disorder, in 1879, was cured by the remedy he has since sold to the world-wide fame—"Warner's Safe Cure." The sale of the "Warner's Safe Remedies" has been so widely extended that warehouses and laboratories for their manufacture have been established in all quarters of the globe, not the least prosperous being one in far distant Australia. People have erroneous notions, both of the motives and character of proprietary medicine men. As a rule they are solid, substantial, trust-worthy citizens, who win the success that comes to them purely on the merits of the goods they produce and of the work they perform. It is especially true of the central figure of this group. This picture hanging side by side with prominent journalists, religious, political and foreign, will probably attract more attention than those famous editorial writers, because there is hardly a person who walks the street who has not either used some of the remedies manufactured by these men or had their interest stimulated in the gentlemen themselves by the record made by their remedies among personal friends. This picture is sent out with the compliments of Mr. H. H. Warner, who, besides having won such distinguished success in the sale of his "Warner's Safe Cure," is well known as the founder of the "Warner Astronomical Observatory," Rochester, N. Y., and the "Warner Astronomical Prizes" for cometary discovery, so eagerly sought for by astronomers all over the world. Mr. Warner is a self-made man, and those who know him best say that his success has won him such a life (he being at present not over 45 years of age), in all respects eminently deserved, for he is a man of very broad views and wide extended liberality.

1885. FALL 1885.

THE BIG STORE TO THE FRONT.

BUSINESS BOOMING IN EVERY DEPARTMENT.

FURS! FURS!! FURS!!!

A large assortment at the most reasonable prices.

Ladies' Astrachan Jackets; Persian Caps, Muffs and Boas; Seal Caps, Muffs and Boas; Mink Caps, Muffs and Boas; Black Fur Capes

A splendid assortment of Woolen Goods at remarkably low prices for Women and Children, unsurpassed by anything in the Trade.

Flannels of every description and quality now in Stock at the BIG STORE, and we respectfully solicit an inspection of these Goods; they are special value and will excel in make and prices anything previously offered to the public in Deseronto.

The Tailoring Department is now replete with the most fashionable and varied makes of goods that can be obtained in the European and Continental Markets, and we wish to impress upon our friends, that, as the best of Trimmings only are used in the making up of Garments, we can guarantee a style and finish which will stand comparison with any House in the Trade. Mr. Stoddart, who is already well known for his superiority in making a good stylish fit, is in charge of this Department, and will be pleased to have an opportunity of exhibiting these special goods to his friends, and quote prices for same.

BOOTS & SHOES

In this Department the BIG STORE still maintain their well known reputation for keeping only the best quality and the most fashionable Goods manufactured, their facilities for buying, and the immense quantity of Boots & Shoes disposed of, enable them to offer at more advantageous prices than can be done by other competitors who profess to sell the same class of Boots. Do not be induced to purchase inferior Goods simply because the price is low; such articles are dear at any cost. The Big Store do not impose upon their customers trashy goods, but sell only first-class articles, and this principle has won for them their well earned reputation which is so generally known and appreciated by their Customers and the Public.

HIS RE is the head rendezvous for Groceries and Provisions of Sterling Quality and finest brands. Canned Goods of every description in the market being on sale, but space will not permit us to enumerate in detail the specialties obtainable, but suffice it to say that for all Provisions seasonable and of the best quality, we recommend THE BIG STORE as unsurpassable.

HARDWARE, CROCKERY, GLASSWARE, LAMPS, VULCANISED CHIMNEYS, RUBBER GOODS, PAINTS, OILS, SALT.

We must not omit the astounding fact that the sales at the BIG STORE during the month of October were the largest since the erection of this establishment, which proves beyond doubt that in their endeavors to supply their Customers with the best goods at the most reasonable prices, they have won the confidence of the public, and now beg to thank their Customers for the very liberal support hitherto accorded them, and in the future solicit a continuance of the patronage so gratuitously bestowed upon them during the past.

THE BIG STORE,

A. A. RICHARDSON,

Deseronto, Nov. 5th, 1885.

election of Directors and other business.

S. R. SULLY,

Deseronto, Ont., Secretary.

NOTICE.

Wonderful is the instantaneous effect of
West's Pain King in the relieving cramps,
and all other difficulties. Women who
weight in gold and costs but 25 cents.
Should always be kept in every household.
Sold by W. G. Eggar, Druggist. 10-2

WHAT MAKES A MAN.

Not numerous years nor lengthened life,
Not pretty children nor a wife,
Not pins and chains and fancy rings,
Nor any such like trumpery things;
Not pipe, cigar, nor bottled wine,
Nor liberty with kings to dine,
Not coat, nor boots, nor yet a hat,
A dandy vest or trimmed cravat,
Nor all the world's wealth laid in store;
Nor Master, nor Lord, nor Squire,
With titles that the memory tries;
Nor ancestry traced back to Will;
Nor went from Normandy to kill;
Nor thousand volumes rambled o'er,
Nor Latin, Greek, nor Hebrew lore,
Nor judge's robe nor mayor's mace,
Nor crowns that deck the royal race,
These all united never can
Avail to make a single man,
A truthful soul, a loving mind,
Full of affection for his kind,
A spirit firm, erect and free,
That never basely bends a knee,
That will not bend a feather's weight
Of slavery chain for small or great;
That truly speaks from God within
That makes a league with heaven;
That asks the letters that despote make,
And loves the truth for its own sake;
That worships God, and him alone,
And bows no more than at His throne;
And trembles at no tyrant's nod;
A soul that fears no one but God,
And thus can smile at curse or ban—
This is the soul that makes the man.

THE PRINTER.

How little ye ken,
Ye women and men,
By courtesy styled "gentle readers,"
Of how much ye owe
To the noble type
And his army of folders and feeders!

The poet may sing
Of his lyrical string,
Of his Muses, his Loves, and his Graces;
But he had better pause
If he warbled at all,
Were it not for the chases and cases.

The writer of fiction,
Whose beautiful device
Beguile the long evenings of winter,
His words would best
Like a caudle be served
Of its key—if not picked by the printer!

The annalist, too,
That brings to your view—
The wonderful story of ages,
Would sure be as dumb
As a clam or a nummy,
If nobody made up his pages!

Then who do I need,
I 'eg him take heed
To the lessons these stanzas convey him,
Say—Now that you know
What a treasure is
To the Printer, be certain "TO PAY HIM."

DIOCESE OF ONTARIO.

PASTORAL ADDRESS.

To the Members of the Church of England in
the Diocese of Ontario.

THE MISSION.

The Mission Board of the Diocese has re-
ceived the letter of the Bishop of the
Diocese of Ontario, in which he has
asked me to write a Pastoral Letter on the
subject of our Diocesan Missions, and to
direct that it may be read in all our Churches
and Mission Stations on Sunday
immediately preceding the annual mission-
ary meeting. The object in view is to
improve our solemnity with the necessity of
larger attendance and more liberal contribu-
tions at these meetings. By these means alone
can you prove your interest in the welfare
and extension of the Church in this Diocese.
The vast majority of you are pledged to our
loyal service by your Confirmation vows, and
all of you by Holy Baptism. This loyalty
to Christ and Church is the basis of our
missionary work. It is the duty of every
member of the Church to be active in
working like earnest men and women for
the spread of your own principles and by
bringing the means of grace, as administered
by the Church of England, to bear upon
the souls of our brethren, who are now
either destitute of them altogether, or re-
ceive them only in scanty measure. In other
words, your churchmanship is tested by
the support you give to the Diocesan Mission
Fund. And why do I say this? Because
the Mission Fund is the only fund which
the Mission Fund is under God, the only
machinery by means of which the Church
can progress in all that constitutes growth,
such as new missions, new churches, and
new members. Speaking with all the au-
thority which an Episcopal experience of
thirty-two years can give me, I tell you, dear
brethren, that the Church can never be
materially prospered only by the sub-division
of its missionary districts. It will be the
duty of the deputations that will shortly
address our missionary meetings to make
this plain to you. The object of these
meetings is to distinguish the Mission
Fund from the other funds of the Church,
and to make you at Whitenside and Advent is
a business one. I know that too often those
meetings are made an occasion for appeals
to your sympathy and exhortations on the
abstract question of the duty of Christian
charity, and the real business ought to be
—to bring home to the people assembled
the duty of supporting the Mission Fund
on account of the blessing that has attend-
ed its past work. I am sure that the
deputations that will shortly address you
will give you a brief outline of that working.

AT MY CONVENTION, March 20, 1882,

there were 46 Parishes and 1,200 members in
the Diocese. Since that time 48 new ones have
been organized. How has this been effected?
A portion of the sub-division of Parishes
and Missions. A portion of the people as-
sembled has been set apart as a new one.
It has been assisted by a grant from the
Mission Fund, and it has been assisted by
self-supporting. Of such Missions, now

self-supporting, no less than 24 have been
organized and are now contributing to the
Mission Fund. Since my consecration 48 new Pa-
rishes or Missions have been established on
a sure basis, making in all 94 Parishes in
the Diocese. Many of these are in urgent
need of sub-division, and our Mission Fund
only requires to be increased in order to set
off what are called "out-stations" as a new
for a short time. We have at present 38
missions which are receiving aid from the
board, all of which require sub-division, in
order that Divine Service should be held,
not once a fortnight, or once a month, but
on every Lord's day. To show you that the
Diocese is ripe for sub-division I may add
that public worship is held either by our
Missionaries or Lay Readers in about 70
places where there are no church buildings.
In this process of sub-division we have been
progressing for the last 24 years at the rate
of two new parishes every year. This is
something to be really thankful for, but
why not double this increase. God will give
the increase if the church members who
have contentedly given a small sum hitherto
will give twice that sum this year. We
have in this Diocese as purely missionary
work to do as is needed in Muskoka and
Algonquin, and the North West, and the inter-
est deservedly taken in this work. I have
seen fields compared with that taken in places
near home makes me believe that it is
want of information regarding the spiritual
needs of our Diocese that prevents our Dio-
cesan Mission Fund from being largely in-
creased. I am led to this conclusion also by
the fact that throughout the Diocese I see
everywhere increasing earnestness and zeal
in our parishes, as evinced by the numbers
confirmed, the multitudes of communicants,
and the building and beautifying of our
churches. It is not, therefore, want of in-
formation, but a lack of information brought
home to our consciences that causes us to
refuse "to bear each other's burdens and
so fulfil the law of Christ." Let me, there-
fore, in all sincerity and affection plead with
you this new year to strive to meet your
obligations to Him who redeemed you, by
doing your duty to His Body and Bride, the
Church, by assisting to subdivide the spiritual
wants of her destitute members.
I am your faithful Bishop,
J. T. OSTAPKO.

January, 1882.

MUNICIPAL ELECTIONS.

Never in the history of Deseronto has
there been such an exciting and keenly con-
tested struggle for municipal honors as in the
election of last Monday. After nomination day
the various candidates and their friends
commenced the campaign with great vigor
and not an elector was left without being
canvassed. Early on Monday morning the
committee men of the rival parties were on
the streets, and notwithstanding the pelting
rain and dismal weather, they kept steadily
at their work with undiminished ardor
until the close of the poll. By three o'clock
it was over. The electors had voted. Of the
available electors had voted. Of the twenty
female voters on the list all are reported to
have voted but one. The vote cast was the
heaviest ever polled in Deseronto, 340 be-
lieved having been deposited. There were
two polling subdivisions this year, No. 1 in
the town hall, and all electors west of Centre
street, and No. 2 in Smith's Block, for all
east of that street. 152 votes were cast at
No. 1 and 187 at No. 2. Mr. R. N. Irvine
was Returning Officer and presided at the
poll. Mr. R. M. Jack, his deputy, took charge of
No. 2. Both gentlemen gave unequalled
satisfaction. The result of the polling was
as follows:

POLLING RESULTS.

No. 1. Total.

R. H. Baker..... 78 131 209

James Cameron..... 84 102 186

John R. Edwards..... 80 128 208

Geo. Stewart..... 71 103 174

James Gault..... 58 112 170

Wm. Irvine..... 64 90 154

Spilled ballots.

The doors of the town hall being thrown
open that building was soon packed with
the largest assembly of citizens ever collect-
ed within its walls. The clerk announced
the result which was received with cheers.
He then called on the different candidates
to address the electors.

Mr. Baker, who headed the poll as in for-
mer years, was the first speaker. He wish-
ed them all a Happy New Year. The re-
sult showed that he was not tired of him.
He would not have run if all the old coun-
cillors had stepped aside. He recounted his
actions in the old council. He had not been
able to carry all his points. He would work
for better drainage and for more gravelled
streets. He went fully into the history of
the Fourth street sewer, and he had an-
other drain should be put down on that
street, and he thought two drains were
necessary on the street running between
and south between Pendas and Thomas
streets. He also defended his action in the
sewery on the old council, but he was as
victorious he would only confine himself to
a few points. It was with hesitation he
consented to make his preferred Mr. McEl-
lie, but he had yielded to the desire of his
friends as expressed by a duly convened con-
ference. It might well be said that he had
courage to have entered on such a contest
when he looked back on the events of the
last two years. When he looked at Mr.
Edwards, very few would agree with him in

his course. A year ago the very men who
formerly opposed Mr. Edwards took that
gentleman inside their ring, merely to show
the electors that they could put in or out any
man. He had watched their course in the
city, and he had observed that Mr. Edwards
did not get a fair hearing and was not ac-
cused common courtesy. Obstacles had
been placed in his way as a candidate. It
had been deprecated the introduction of party
politics into our local affairs. The people
agreed with him and hence the signal vic-
tory, placing him second and Mr. Edwards
third on the poll. He was more pleased to
see Mr. Edwards elected than himself. He
would set regardless of politics or creed, as
he was neighbors and had worked to build
up the town. Kings were wrong and the
people would not be ruled by them. He had
been supported by men from whom he did
not expect or perhaps deserve support. He
would endeavour to do justice to all and
thanked them most heartily for their sup-
port.

Mr. Edwards was the next speaker. He
was obliged to the electors for their hearty
support and for the great victory they had
secured. His opponents had said he should
not sit in the council again but the people
had decided that he should. He was not for
sale and did not take a hand in the large
amount of public money and had dispensed
it to best advantage. He had been opposed
by some because he had voted for the Scott
Act. He was not a total abstainer but he
had followed the dictates of his conscience
and voted for the Act though taking no
active part in the contest. He hoped that
he would not betray the confidence which
the electors had placed in him and thanked
all alike.

Mr. Stewart followed, congratulating him-
self on being lucky enough to get fourth
place on the list. He would make no rash
promises but the electors could depend on
his doing what was honest and just. He
could have polled a larger vote had it not
been that he was against the Scott Act.
There was no man, however, who drank
than he did. He was a conservative, but in
the council he would throw all that aside
and treat Grit and Tory alike. He had
fought the battle squarely and used no
undue influence. If he did not do his duty,
the electors could turn him out. He thanked
all for their support and for the contest.

In addition to the councillors elect the
meeting was addressed by Mr. Chas. Dry-
den, the hero of so many meetings, who
gave a complete resume of corporation
affairs in the past, and by Mr. Geo. Stuart
who made some explanation of the work on
the Fourth street sewer. As the electors
made them for all the speakers. Dr.
Newton, the retiring Reeve, also addressed
the meeting and was warmly applauded. At
the meeting was taken up with a long, ac-
rimonious and exciting wrangle of a political
nature, Mr. James Cameron and Mr. Newton
taking the principal part in the discussion.
Finally three hearty cheers for the Queen
being proposed by Mr. Cameron and being
given with a will by the electors the meet-
ing was closed. The Rathbun Company Band started up
in honour of the successful candidates who
acknowledged the compliment in a suitable
manner.

ICE FOR THE MILLION.

At any desired distance from your well
dig a pit four feet deep, or eight feet deep
square. Place jugs of water in the pit, and fill
between with sawdust. On these jugs lay
a good floor. Around the sides set jugs

The Tribune.

FRIDAY, JAN. 8, 1888.

In the recent election in King's County, N.B., the Minister of Marine and Fisheries was returned by a majority of over 380 over his opponent Mr. Domville, an Independent Conservative. As a sign of the people and an earnest advocate of reform, we congratulate the new minister on his return by the electors of his native county.

There appears to be no falling away of public interest in the municipal elections, which appear to have been everywhere conducted with vigor and determination. This shows a healthy condition of things, evidencing an appreciation of the priceless boon of self-government. Ontario may well be proud of its municipal institutions which with all their faults are inferior to those of no other country.

The Senate during the last session of parliament attempted some changes in the Scott Act. Their attempt to thwart the popular will was happily frustrated by the action of the House of Commons. The majority of the people's representatives in the House of Commons, with the will of the people. While not all favorable to the Scott Act they felt that the people of Canada were disposed to give it a fair trial and they, therefore, resisted any infringement of the Act. Mr. White, the member for East Hastings, was among those who voted in favor of popular rights. It is safe to say he will not suffer for action in this matter. The action of the Senators has resulted mischievously to the very parties whose interests they wished to conserve. Hopes were aroused which cannot be fulfilled. The issue of the struggle in Toronto and other places show that the people will resist the dictation of any class no matter how powerful. Party is cast to the winds when the rights of the people are threatened or their will disregarded.

HASTINGS COUNTY COUNCIL.

THIRTY-ONE MEMBERS.

The Hastings County Council for this year will be composed as follows:

Sidney—H. Blecker, J. H. Farley and John Holgate.
Thurlo—H. Ashley, N. Vermilyea, J. M. Hurley and J. W. Ross.
Hungerford—R. Gordon, A. McGowan and James Clave.
Tyndings—J. C. Hanley, F. West and John Milligan.
Deseronto—W. R. Aylsworth.
Marmora—A. W. Carscallen.
Elziver—J. Tuttle.
Malton Township—John Caskey and Wm. Thompson.
Rawdon—James Duncan, John C. Wilson and John Bateman.
Madoc Village—C. A. Aylsworth.
Stirling—O. V. Faulkner.
Bangor—P. J. Green.
Dunannon & Faraday—D. Kavanagh.
Carleton Place—W. McLeod.
Monteagle & Herschel—John Fitzgerald.
Huntington—M. Robinson and John Gordon.
Wollaston—Not heard from.
Tudor—Wm. Bass.

DISTRICT.

Scarlet Fever is prevalent in some sections of Kawdon.

There is a great deal of sickness at present in Ganacook.

There are now twenty-four prisoners in the county jail.

Mr. G. W. Ostrom was elected Mayor of Trenton by acclamation.

J. O. Proctor, of Brighton, will build a large hotel in Trenton.

Mrs. E. Jones, of Brockville, recently lost a Jersey cow valued at \$50.

The new dam at Trenton is now about completed; it is about 17 feet high.

The Prince Edward County Farmer's Institute will meet at Picton on Jan. 22nd.

The Dairywomen's Association of Eastern Ontario met in Belleville on Wednesday.

The barn of Mr. Fred Whitney, Pittsburg, was recently destroyed with all its contents.

1,466 vessels representing a tonnage of 342,112 departed from the port of Kingston during 1885.

John Murphy, of the township of Herschel, was recently fined \$20 for selling liquor in prohibited hours.

A new English Church will be opened at South Lake on Jan. 17th. Rev. J. H. Nimmo is pastor.

Rev. R. S. Farmer, of Adolphustown, was presented with Christmas offerings of the value of \$100.

The iron mines along the Kingston and Pembroke railway will be re-opened within the next few weeks.

John Jenkinson, of Marmora, fell down stairs on Christmas day breaking his neck and expiring instantly.

An 18 months old son of Arthur J. Miller, formerly of Belleville was poisoned at Hamilton by the mistake of a druggist.

Belleville's imports for 1885 were \$22,707, a decrease of \$2,076 on the previous year, and the exports \$30,407, a decrease of \$30,781.

Building operations continue brisk at Trenton which has enjoyed a material increase in trade by one ferro traps over the Central Ontario Railway.

In Richmond the following gentlemen were elected by acclamation—R. Van Koughnet, Reeve; Wm. M. Seasmith, Dep. Reeve; and M. Boyd, John McGuinness and Irvin Jackson, Councillors.

The Bath farmers have not yet secured their money for barley sold to A. G. McCaulley, of Trenton. McCaulley alleges that he lost money on the cargo, as the grain was not up to sample. The matter is in the hands of a lawyer.

NEWS OF THE DAY.

Petroleum has been found at Parkhill. The Anchor Line Sidonian has been sunk off Sicily.

M. Pasteur now proposes to cure eleven persons bitten by a mad wolf.

James King fell from a window in Kings on the 1st, and broke his neck.

Princess Christian, daughter of the Queen, is reported to be mentally disturbed.

Germany has a dispute on hand with Portugal about a boundary line in Africa.

A Toronto barber fatally stabbed a shopmate with a pair of scissors on Saturday.

M. Brison, the resigned Premier of France, and President Grovy have had a difficulty.

Messrs. Moody and Sankey commenced a short revivalistic campaign in Montreal last Saturday.

It is reported that a number of Scandinavians in Houston County, Minn., are affected with leprosy.

Two Ojibwa River shantymen report a persistent attack on them by a wolf apparently rabid.

A proposal is abroad to float a loan of \$25,000,000 to provide China with armaments and railroads.

At an Imperial Cabinet meeting it was resolved to push the question of Modified Home Rule for Ireland.

Three men, names unknown, drove into an airhole between Sorel and Berthier on the 1st and were drowned.

Quiet in Peru and a terrible cyclone in the Argentine Republic are included in the latest South American budget.

A report gives Hungary credit for the intention of changing the arms of the infantry at a cost of \$30,000,000.

About \$30,000 worth of patent medicines will be auctioned off in Montreal to satisfy a fine for undervaluation.

A charge against Warden Massey, of the Central Prison, Toronto, of assaulting a prisoner, has fallen through.

Lieut. Howard denies having scalped an Indian at Batocbo, but admits having cut a scalp lock from young Whitecap.

Mr. Cayley, of Calgary, has gone to jail in preference to the payment of the fine imposed on him for contempt of court.

The late Duke of Abercorn's sons present a sight never before seen in the House of Commons, four brothers sitting as members.

Latest reports from the poverty-stricken districts of the west of Ireland are heart-rending and prompt help is sorely needed.

An order in council has been passed at Ottawa prohibiting convict made barrels from coming into Canada without the payment of duty.

The flood in the Susquehanna River, at Whitehaven, Pa., is within two feet of being as high as in 1885. The greater part of the city is flooded.

The British Government has intimated its intention of opposing the revival of the bill for the construction of a tunnel under the English channel.

The rebel Arala are reported to have penetrated the British lines at Sukkum, and before they were repulsed attacked the soldiers in their tents.

Senator Hoar has made a move in the U. S. Senate to bring embezzlement and other breaches of trust within the operations of the extradition question.

An agreement has been arrived at between Majid Pasha, special envoy of Turkey, and Prince Alexander, respecting the union of Bulgaria and Eastern Roumelia.

"Kid" Meany, an expert thief in this country, has been sentenced to twenty years imprisonment in England, having been concerned in the Netley hall robbery of \$100,000.

SMEARING TO PROTECT SHEEP FROM COLD.

The value of wool depends in the highest degree upon the yield which is present in it, and therefore if the shepherd can provide this where it is wanting in his breed, or can reasonably increase it when it is not abundant and at the same time protect his sheep from the rigor of our northern winters, the end will be attained. In Scotland and in Northumberland, where winter tells almost as severely as in our northern winters, for some generations the herders have followed up the plan of covering their sheep with an untanned application, and in this country the same method has been pursued. Time was when cloth-makers were chary about buying cold wool, but experience has done away with the ancient prejudice, and it is an accepted fact, that such wools are more valuable for fine cloths. Why? Simply because the action of the unguent upon the growth of the fibre is such, as to make it even, softer, and finer, hence more easy and satisfactory in the manipulation. Over and over again this fact has received absolute demonstration. There are two seasons of the year when "smearing" is done; immediately upon shearing in summer, and again, at the opening of the winter. If the unguent is merely rubbed upon the wool, it will serve only to smear it but if it be rubbed into the wool, close down to the body of the animal, it will do it thoroughly, and cover the skin. This is not difficult; the shepherd separates the wool with the fingers of one hand, and with the other lays the unguent at the root of the wool, upon the skin of the sheep. Thus applied, it renders the fibre softer, more pliable, finer, and whoever will try it will be surprised at the benefit. Many times upon the fleeces of grazing sheep, the snows of winter lay in heavy masses, but if the animal shall have been "ointed," the snow does not remain upon them. The unguent is an additional coat in very truth, and the sheep, Scotch farmers, and the shepherds of Northumberland, know how well their flocks have survived the cold of winter, and how well they have perished except for this extraordinary assistance. *America in Agri., cultural for January.*

In this climate it is of the greatest importance that a Cough should be cured immediately, as delay is liable to bring on Pulmonic Complaints that will take considerable time and money to cure. Always be prepared and have a bottle of W.G. EGAR'S Syrup on hand, the remedy that was never known to fail. Cures Croup, Asthma, Hoarseness, and all Throat and Lung troubles. Sold by W. G. EGAR, drug gist. Price 25 cents, 50 cents, and \$1.00 per bottle.

NEW YORK LETTER.

To the Editor of the Tribune.

The "Holidays" have come and gone, and the reaction begins to be felt. The people in general have a tired look, and lassitude is evident in the bearing of many. It is said that, notwithstanding the hard times, such sums of money were spent for the holidays as would have been sufficient for a year's necessities. The stores have been literally "packed," people standing three and four rows deep at many counters, waiting for opportunities to be waited upon. The store outside was no less animated. Fourteenth-street from Broadway to Sixth Avenue, and thence up to 23rd street, was lined on either side by small booths, tended by men or women of every nationality, and selling every conceivable ware. Those seemed to do a flourishing business, and through the few bitter days that passed they kept up their spirits by lustily announcing their bargains and maintaining something of their animal heat by vigorous pounding of themselves. The little stalls have vanished now, and the sidewalks are until another year, when the old salesman, or more like his heir, will take up his business where he left it off last year.

We read cheerful accounts and enjoy beautiful word pictures of the true English Christmas, but have never seen one. If, however, it is more royally provided for, and more hugely enjoyed than the same day in "the States," it must be fine indeed. But we will not trespass by a description of one.

The sale in jewelry this year rivals anything ever remembered by this generation. Tiffany, Starr, and others, with the greatest success in disposing of their stocks in this line. It would be folly to try and enumerate these articles; but silver hardware, cases and umbrellas are very near heading the list, since the fashionable customer's outfit is incomplete without them. Though not jewelry they are indispensable in the stock of these large houses and so deserve mention.

The most distressing thought of the past two weeks has been the grief and agony of the bereaved families at Natick, Penn. After repeated hindrances in their work, and narrow escapes from death, the hope of rescuing the prisoners alive is abandoned, and the most they can do is to continue their untiring efforts, with the sole satisfaction of rearing the dead for interment. A complete list of the missing contains about twenty names and most of these men were married and have helpless families. The work of excavation will be continued, and there is talk of raising a monument over the spot, in memory of the victims.

Friday, January last, the day for the inauguration of Gov. Hill, was clear and mild and large numbers of the State militia gathered at Albany to join in the ceremony in his honor. The Governor rode in an open carriage, with his staff about him, and acknowledged the cheers of the spectators by doffing his hat. His reception at the office from Judge Van L. Larned, of the Supreme Court. His inaugural address was very lengthy but listened to with satisfaction. A reception followed at the Executive Chamber, for two hours, during which time, thousands of citizens paid their respects.

An accident occurred on the New Haven Railroad last week, that might have been most disastrous. The wind blew a fierce gale during the night and about two in the morning, tore away the platform at the little station at Pelham, landing it across the track. About two minutes later the night express came thundering along and struck the wooden obstacle sending thousands of splinters flying in every direction. The engine was thrown from the track and a steep embankment, the baggage and mail cars following suit. The passenger cars stuck in the ground and so saved numberless lives. One man only was killed, the fireman, several were injured but will recover. The signaling of the following express prevented a double catastrophe and the alighted passengers were transferred to it and brought to the city. Great blame is attached to the village authorities who allowed so innocent a platform to stand. The supports were driven into the ground over the embankment and when it gave way there was no help for it.

HEAD.

(From Our Own Correspondent.) We regret to announce this week that the Rev. Father Meade has resigned his mission of Northern Tynedings, owing to his continued ill health. The announcement is not surprising, as he has with unusual regret throughout the Township and parts adjacent, as the Rev. gentleman was a general favorite. Father Meade has been the genial and loving pastor of this mission during the past three years, and by his kind and affectionate disposition, and his ever readiness to meet the calls of duty, he won the affection and approbation of all with whom he came in contact. It was hoped that with care and rest he would soon have been again able to resume his official duties, but an all-wise and inscrutable Providence has ordered otherwise. We trust that with continued rest, he may, in time recover his health. In his retirement the best wishes of his faithful people follow him with their earnest prayers for his temporary and spiritual welfare.

Monday last was election day and was the wettest day for this season of the year within the memory of the oldest inhabitant. Owing to the weather and state of the roads a small vote was polled in some wards. At the time of writing the returns have not been received, but Mr. Hanley and Dr. Milligan have been elected as Reeve and second Deputy Reeve by handsome majorities.

Miss Kate O'Sullivan has been appointed teacher in School Section No. 17, as successor to Miss Whinn. The trustees and parents regret exceedingly to lose the services of Miss Whinn, who was a most successful teacher and a general favorite with all.

Miss Anastasia White has been appointed teacher in School Section No. 15. Miss Maggie O'Sullivan has been re-engaged as teacher in the school on the 7th concession.

Miss Julia Black has been appointed teacher at Black's School House on the 8th concession. A most successful shooting match for game and turkeys took place at Mr. Aley's 4th con., on the 30th ult. Fifty

persons were present, all of whom took part in the contest. The first bull's eye was taken by Mr. J. McFarlane, the second by Mr. John Robinson, and the third and last by Mr. Charles McFarlane. It was a most successful meeting representatives being present from Read, Melrose and Bechelor's Falls.

It was refreshing to see the ladies turn out to vote last Monday notwithstanding the inclemency of the weather. There was a large number of them and they stood to their guns like men.

Mr. Cornelius Campbell, of Tweed, is visiting his many friends in this section. We are always glad to know when the "Campbells are Coming."

A most successful social and reunion took place in Hanley's Hall on Friday evening. The music was excellent, and the votaries of Terpsichore enjoyed the many dance to their heart's content.

DESERONTVILLE.

(From Our Own Correspondent.) The silver wedding at the parsonage on New Year's night was a very enjoyable affair; over a hundred sat down to a bountiful repast provided by the ladies of the circuit, and spread in the Town Hall. After the tables were cleared and some speech making in the hall the company adjourned to the parsonage where a very pleasant evening was spent. N. Woodford acted as chairman for the occasion, and the several members of the gentlemen and ladies' committee did every thing in their power to provide for the enjoyment of all present.

Mr. Horatio Day, and Mrs. Alf. Hunter from Kingston, have been on a visit to the parsonage.

Mrs. James Redner, of Rednersville and Mr. & Mrs. John Robin, of Annelburg, and Mr. & Mrs. D. Baster, of Brighton have also been guests at the parsonage.

The Rev. Mr. Jolliffe, of Bloomfield, will preach missionary sermons on this circuit next Sabbath.

The people of the Bethel Church neighborhood are preparing for a first class Festival on Thursday the 21st inst. The musical programme will be provided by the Rev. D. O. Crossley, of Deseronto.

COMMUNICATIONS.

GRATEFUL TESTIMONY.

To the Editor of the Tribune.

DEAR SIR,—Please allow me space in your columns for a few words. I became partially blind one year ago last August. Since that time I have been unable to do any of my usual work. Having heard of Dr. F. Yones, of Deseronto, I came under his treatment in September last. I can now say that I am enjoying better health than I have for the past five years. I cannot award too much praise to Mr. Yones for his successful treatment.

MRS. LYMAN COLE, Watertown, N. Y.

Dec. '85.

A HANDSOME TRIBUTE.

HYDE PARK, CROMWOLD FARM, DUTCHES CO., NEW YORK.

To the Editor of the Tribune.

DEAR SIR,—I feel that I am still with you; there are so many of your people here that I cannot think of others. Then, too, the position of your people who are with me is so worthy that I feel what an honor it was to have known you all. I cannot find words to tell you fully how much credit belongs to your Canadian sons for their great industry, steadiness, and care for their employer's interests. Their conduct has been much above what could be covered by a first class earnest recommendation. Not only this but they have carefully husbanded all their earnings for the dear ones at home. And now that the time is close at hand for their visit to their homes I can see their eyes glow and their forms straighten up with the pride of having done their duty. I am sure their wives and sweet hearts will have cause to rejoice, as I have listened to some of the pleasant carrying home some hundreds of "Yankee" treasures of wondrous beauty. If the conduct has been most exemplary the work of their hands is equal to it. I consider that the Big Barn which is now about completed is by far the finest in this state if not in the United States. The plan of the Barn is excellent, the material used the best in the market and the workmanship credit even to Canadian workmen. The Big Mill at Deseronto furnished several thousand dollars worth of the lumber. I trust the boys and their worthy commander will enjoy a pleasant visit and quickly and safely return to their Hyde Park place and complete their undertaking. I will send you a large photograph of the Farm buildings next week.

SANTA CLAUS'

HEADQUARTERS FOR
BOOTS AND SHOES

FOR THE HOLIDAYS IS

T. N. CARTER'S,

OPPOSITE THE O'CONNOR HOUSE,

Where he has a Large Stock of Boots and Shoes, suitable for the Holidays, which he sells so cheap that everyone can buy a pair for a present for their friends.

THE BIG STORE TO THE FRONT.

BUSINESS BOOMING IN EVERY DEPARTMENT.

FURS! FURS!! FURS!!!

A large assortment at the most reasonable prices.

Ladies' Astrachan Jackets; Persian Caps, Muffs and Boas; Seal Caps, Muffs and Boas; Mink Caps, Muffs and Boas; Black Fur Capes

A splendid assortment of Woolen Goods at remarkably low prices for Women and Children, unsurpassed by anything in the Trade.

Flannels of every description and quality now in Stock at the BIG STORE, and we respectfully solicit an inspection of these Goods; they are special value and will excel in make and prices anything previously offered to the public in Deseronto.

The Tailoring Department is now replete with the most fashionable and varied makes of goods that can be obtained in the European and Continental Markets, and we wish to impress upon our friends, that, as the best of Trimmings only are used in the making up of Garments, we can guarantee a style and finish which will stand comparison with any House in the Trade. Mr. Stoddard, who is already well known for his superiority in making a good stylish fit, is in charge of this Department, and will be pleased to have an opportunity of exhibiting these special goods to his friends, and quote prices for same.

BOOTS & SHOES.

In this Department the BIG STORE still maintain their well known reputation for keeping only the best quality and the most fashionable Goods manufactured, their facilities for buying, and the immense quantity of Boots & Shoes disposed of, enable them to offer at more advantageous prices than can be done by other competitors who profess to sell the same class of Boots. Do not be induced to purchase inferior Goods simply because the price is low; such articles are dear at any cost. The Big Store do not impose upon their customers trashy goods, but sell only first-class articles, and this principle has won for them their well earned reputation which is so generally known and appreciated by their Customers and the Public.

THE BIG STORE is the head rendezvous for Groceries and Provisions of Sterling Quality and finest brands, Canned Goods of every description in the market being on sale, but space will not permit us to enumerate in detail the specialties obtainable, but suffice it to say that for all Provisions reasonable and of the best quality, we recommend THE BIG STORE as unsurpassable.

HARDWARE, CROCKERY, GLASSWARE, LAMPS, VULCANISED CHIMNEYS, RUBBER GOODS PAINTS, OILS, SALT.

We must not omit the astounding fact that the sales at the BIG STORE during the month of October were the largest since the erection of this establishment, which proves beyond doubt that in their endeavors to supply their Customers with the best goods at the most reasonable prices, they have won the confidence of the public, and now beg to thank their Customers for the very liberal support hitherto accorded them, and in the future solicit a continuance of the patronage so gratuitously bestowed upon them during the past.

THE BIG STORE,

A. A. RICHARDSON,

Deseronto, Nov. 5th, 1885.

MANAGER.

DRY GOODS & MILLINERY.

MRS. DALTON

Has now completed opening her large importations of FALL and WINTER GOODS, which will be offered at prices to suit the times.

In great variety—Very Cheap—Call and inspect these—FLANNELS! FLANNELS!! FLANNELS!!!

all colors and all prices, exceedingly Low

CLOUDS, CLOUDS, CLOUDS, CHILDRENS HATS, AND KNITTED CAPS AND HOODS,

Ladies' Wool and Cotton Underclothing, Men's and Boy's Wool Shirts and Drawers at a bargain.

THE MILLINERY DEPARTMENT.

Is now open and comprises all the novelties in HATS, BONNETS and TRIMMINGS for the coming season, and all exceedingly CHEAP.

MRS. DALTON, St. George Street.

NEVER FAILS TO GIVE SATISFACTION.

MCCOLL'S LARDINE MACHINE OIL

Our "English" Wool Oil—something new—finest in the market. Our Cylinder Oil—600 fire test—much superior to tallow.

THE WEDDING BELLS;

OR,
TELLING HER FORTUNE.

By the Author of "PROVED OR NOT PROVED," ETC.

CHAPTER XIV.

The day passed slowly and heavily; a sense of mystery and oppression hung over Fetherstone Hall and its inmates. Mr. Gravel, the superintendent, arrived promptly, and he was closeted for some time with Mr. Fetherstone and his brother. Then a strict search of the entire house was instituted, the ladies and gentlemen submitting willingly to allow their wardrobes and trunks to be searched in order to prevent the household from feeling hurt at the investigation. But nothing was found, and the police-officer's solid face bore an expression of perplexity which rather amused Ted. Clara kept her room, suffering, Sylvia said, from a nervous headache which had completely prostrated her. Lady Ellison, anxious about Clara, and perplexed about her loss, went early to recover her usual serenity, and sat with Lady Mary in her boudoir, talking about everything but the robbery of which their thoughts were so full.

Later in the afternoon Mr. John Fetherstone and Mr. Burke drove off to the station, accompanied by Ted; and just as the dog cart which was to take them to the station was driven round from the stables Clara awoke from a troubled sleep into which she had fallen, and lifted her head from her pillow. Sylvia was sitting by her reading, and at Clara's movement she started up.

"Is your head better, dear?"

"A little," she girl answered, languidly. "Is any one going away, Sylvia?"

"Only Mr. Burke," Sylvia said, heartily.

"Mr. Burke?" repeated Clara, shaking back her face as if she were against which she lay. "Why—why—why?"

The pale, parched lips refused to finish the sentence. Sylvia bent down anxiously.

"He is only going away for a day or two on business," she said, hastily; and Clara caught her hand.

"You are sure—you are sure?" she said, faintly.

"Quite, dearest."

"Is it not sudden?"

"Yes, I think so. Uncle John is going also."

"O, Sylvia—Sylvia!" Clara cried, suddenly; and clasping her friend closely to her, she burst into a cruel passion of tears.

Two or three days passed in the same dreary, oppressive manner. The wedding guests departed. Sisters came from the happy pair in Paris, which brightened up Lady Mary immensely. Clara Fritz has come down-stairs again, looking very white and fragile, and showing a strange reserve of manner unusual to her, also carefully avoiding the mention of the lost jewels. If she is ever spoken of before her, she would fawn and grow pale alternately, and such a fit of shivering would seize her, that by tacit consent they were silent in her presence on the subject.

As yet nothing had transpired; the truth remained surrounded by perfect mystery. All investigation had been of no avail—the strict search had been fruitless; and when Mr. Burke returned alone on the third day after his departure, they were as far as ever from discovering the truth.

She was, as he was still very generally called by the Fetherstones, drove up, looking very handsome and far brighter than he had ever seemed before. Whatever business had taken him away, it had evidently had a salutary effect, and he, too, who went out on the wide stone steps to meet him, put his hand affectionately on his shoulder.

"How is she?" were Mr. Burke's first words.

"Who?—Clara, or your—"

"But Mr. Burke's hasty movement prevented him completing the sentence.

"Clara, of course! But be careful!" said Mr. Burke, with a quick glance around.

"Clara is better; she is down-stairs again. Why, there's no one to hear us, old fellow! Dick, what is all right down there?"

"Yes; thank Heaven, there was no mistake!" And standing on the stone steps, Mr. Burke drew a long breath of relief; then as he felt they entered the house together.

"Uncle John has come up to town, then?" said Ted, as they crossed the outer hall.

"Yes; he was anxious to settle some business there," replied Dick; and they entered the inner hall, where Sylvia was presiding over five o'clock tea; and when the home party were gathered, Sylvia, very bright and pretty, with Charles Dashwood in attendance, looked up and smiled at her brother's friend, who crossed the hall to greet Lady Mary, who was standing on a great fur rug which was thrown down before the old-fashioned hearth, and her brother, Clara, too, came in, and Lady Mary saw that though the girl's face had been white as death, as the young man entered, a bright ray appeared on each cheek, and a sudden flush came into her soft brown eyes.

Stopping for a moment to exchange a cordial hand-clasp with Mr. Fetherstone, Dick went up to Lady Mary, and gave one swift glance—eager, passionate, tender—at the girl's face by her side.

"I am very glad to see you, Mr. Burke," he said, and then he said, "We have missed you greatly, have we not, Clara?"

Clara made no answer; it seemed as if she had not heard the question; but Lady Mary, with a sympathetic look, answered for her.

"Greatly," she said, in her low, sweet voice, and turning to her sister. Richard Burke took her hand, and, bending, brushed it softly with his lips with the graceful courtesy and chivalry of a former prince. Then he went back to the rug, and put out his hand.

"I am glad to see you so much better," he said, in a low tone of unutterable tenderness, with his gray blue eyes fixed on the girl's fair face. "You are better, are you not?"

Clara said nothing, neither did she make any movement to put her hand in his. Suddenly, and still in the same unbroken silence, she lifted her eyes, and looked him full in the face; and while his countenance expressed nothing but the utmost tenderness and the most unbreakable love, hers was full of the cruel contempt, the bitterest anger.

For a moment she looked at him, surveying him from head to foot as she might have done a stranger who had grossly insulted her; then she turned scornfully and silently away, crossed the hall, and disappeared up the wide oak staircase.

Lady Mary and Mr. Burke looked at each other in surprise, mingled, on Mr. Burke's face, with an expression of keen pain; while Ted's face flashed angrily at this insult to his friend. He started forward, impetuously, but Dick's hand on his arm, and his own eyes on Lady Ellison, who was, of course, unaware of Clara's strange conduct, stayed the angry words on his lips.

Still, it was very strange! What could such a reception mean?

CHAPTER XV.

"I KNOW WHO STOLE THE JEWELS."

"It is no use, old fellow! I have made a terrible mistake, and must suffer the consequences. I shall give it up and go away."

"Nonsense, Dick; there must be some mystery or other. The girl evidently liked you, and she is not one of those to change her mind."

"Who shall fathom the mystery of a woman's caprice?" said Mr. Burke, with a faint smile. "She thought she liked me for a time, I suppose. But I was a fool to think that I could win the love of a young girl."

"A fool—why?" said Ted Fetherstone, hastily.

"Why should you not win her love? She is either coquetting with you or she does not know her own mind. At any rate, there is no one else, and not the slightest necessity for you to give it up, and as for going away, that is out of the question."

"Why is it out of the question?" said Mr. Burke, wearily, leaning his head on his hand as he sat by the window and looked out on the grounds, where Sylvia and Charles, Clara and one of the young ladies, were playing lawn-tennis.

"Because, rather than let you go, I will make a clean breast of everything," said Ted.

His friend smiled sadly.

"You won't do that, Ted," he said, quietly. "I am not afraid of your betraying me. No man could have a truer friend than I. You have been to me ever since I saw you first. Do you remember it?"

"Remember it, and how you and Fred Farrell nursed me through that long fever. Don't talk of friendship, Dick; I call you Dick still, you see, and I owe you to live twice over, and it is yours to dispose of as you will."

"Dick smiled, and met in a strong, close clasp."

"I think Miss Allen will have something to do with the disposal of your life, old fellow," he said, lightly. "Don't you, such a complete surrender of it, Ted?"

Ted Fetherstone laughed; then his eyes followed the direction of his friend's, and dwelt upon Clara's graceful figure.

"She is evidently awfully unhappy," he said, meditatively. "I never saw a girl so changed in a few days. She cannot be fretting about the jewels, for I never saw a girl care less about trinkets and gew-gaws. I believe she is unhappy about you, Dick."

The other shook his head sadly.

"No; unless she is sorry to have to cause me pain. She has a tender heart, dear child."

"And yet she treats you so vilely," said Ted, angrily. "Upon my word, I never saw a girl so unkind. I'd give her a piece of my mind on the subject. Fond as I am of Clara, I cannot justify or excuse her insolence."

"She is not insolent," Mr. Burke said, sadly. "It is not Clara Fritz who said thus. It is some unaccountable prejudice and dislike which have actuated her during the last day or two. She may treat me for my presumption, but I know that she knew the pain she causes, she would not say thus."

"She's a little idiot!" said Ted, savagely.

"Don't let your friendship for me make you unjust, old fellow," said Mr. Burke, quietly. "She is one of the sweetest, truest, loveliest creatures I ever knew. Nay, it will not make me make a worse man for having loved her, even if I make me a sadder one. Did I tell you how, the other evening, she would not let me say that she loved me, how she had to find out that I loved her—how she had,

unknown to his mother, employed a lawyer to make every inquiry? And great tears ran down her cheeks as she told me how she had searched for you, and how, I guess, Ted, what a real pain I had to put on myself not to take her in my arms and kiss those tear-stained eyes," he continued, with a slight laugh, "you would think that a greater stupid than ever, unless a fellow-felting makes you wondrous kind."

"Will you let me speak to her, Dick?"

"Not for worlds."

"Why?"

"Old fellow, surely you can see that this matter in which no third person can meddle."

"Then will you speak to her yourself?" Ted said, eagerly.

"How can I? She avoids me in every way. If I address her she makes no answer."

Mr. Burke answered, wearily, then rising impetuously, he added, "I wish it was I could let me go away, Ted. I only sink deeper and deeper into the mire here. I love her madly and hopelessly. While I remain here, while I am where I can see her, where I can dwell upon her sweetest face, I shall never cure myself of such a mad passion. Let me go away, and perhaps—"

He broke off his speech and sitting down by the table, covered his face with his hands.

Ted Fetherstone went softly to his side, and put his hand affectionately on his shoulder.

"Old friend, dear old friend," he said, hoarsely.

In a few minutes Mr. Burke removed his hands from his face and looked up with a slight, bitter laugh.

"You see what I shall come to if I stay here much longer," he said, instead of his usual cheerful smile. "I have pictured more than I thought. I had pictured our happiness, here and mine, and—"

and Lady Ellison's; but it is all a folly—all this fancy dream of mine. Let me get away from it all—let me go back to the old life. It is all I am fit for—all I can hope for now."

"And your mother?" said Ted, very quietly.

Richard Burke's face flushed, and he turned away. There was a moment's silence, then Ted spoke again, in the same quiet, earnest tone.

"Listen to me, Dick," he said. "You are older and wiser than I am, and no doubt you know your own affairs the best; but if you will take my advice in this, I think you will not regret it."

"What do you advise me to do?" Dick asked, calmly.

"This is to see Clara alone, and insist on receiving an explanation of her conduct to you. You have every right to demand it; you should have given your permission to love her; she has no right to withdraw from you, and to make me the only notice of her conduct."

"How can I see her? She shuns me like a pestilence."

"I will manage that. Will you let me?"

"If you will; but, Ted," and Mr. Burke smiled faintly, "I may as well tell you beforehand that I shall be as wax in her hands."

"Not you," Ted said, laughing. "Tomorrow, when the party for lawn-tennis make some excuse and remain behind, I shall bring this letter to you, and you shall be free to go."

This conversation took place some three days after Mr. Burke's return, and during that time he was to explain Mr. Fritz's same unaccountable coldness and insolence. She never spoke to him, she never looked at him; she avoided him in every possible manner, and a slight bow and an avoid was the only notice she ever took of his presence. Had Mr. Fetherstone and his wife been less preoccupied they might have commented upon this conduct; but the host was consumed with anxiety to make his recovery, and the hostess, having suffered her own jewel robbery, and Lady Mary was anxious about one of her children who was laid up with a sharp attack of inflammation of the lungs; while Sylvia was too much occupied with her mind in puzzling itself about its loss of memory.

Several weeks went by without bringing any change in her conduct, and on a fine Sunday evening a stranger entered the church, and as the sermon was a dull one, gazed curiously around until his attention was attracted by the lamps on the wall. He noticed that all the wicks were so carefully trimmed that there was not an irregular flame to be seen. He wondered as to who would be the careful sexton, and happened to be in the place the following Sunday, he again noticed the same uniform trimming of the wicks.

Passing the church the next day, and seeing the door open, he walked quietly in, and saw the young sexton sweeping out the general side. Looking closely at the young man, the stranger asked: "Do you do all the work about the church?"

"Yes, sir."

"Do you trim the lamps?"

"Yes, sir."

"Why do you trim them in such a peculiar way?"

"I don't know what you mean?"

"Why, the flames are all alike."

"Oh, but you say they are all alike. You would not have them uneven, would you?"

"No," answered the stranger, with a smile. "I should think that for your care, and the sake of the church, you would make them all the same exactly if it were superimposed on them."

"Superimposed! I don't know what you mean by that."

"Certainly, if polygons, having equal sides and angles, are superimposed, the result is a square."

Before the stranger could finish his sentence, the student threw down his broom, rushed frantically out of the church, and across the street, and in a few minutes he astonished his mother by exclaiming, in tones of triumph, "Mother, I know that the sides of the right-angled triangle are equal to the sum of the squares of the other two sides!"

In a moment his school knowledge had come back to him, bathed in his mind by the mention of superimposed figures.

them tried and faithful, and their feelings have already been sufficiently outraged by the strict search over the household. But the growth of many a habit should be interesting to recall briefly the history of this famous brand. In the year 1847, only seven years after the first application of electricity for silver plating articles of domestic use, the first object bearing the name of Rogers was manufactured in Hartford, Conn. The three brothers who originated the manufacture, and who had the surname of Rogers, placed upon the market a class of goods greatly superior to anything previously known. The venture was carried forward for considerable time, until it was found that the high quality of the ware could only be maintained profitably by the employment of greater capital and resources than the brothers had at their disposal. They were, consequently, obliged to suspend, and the business was sold to the Boston Britannia Company, of Meriden, Conn., who required thereby not only the established trade-mark, but also, during their lives, the services of the originators. The facilities and able management of the new owners enabled them to maintain and improve the high quality of the ware, and it is due principally to them that the Rogers name has become so famous for superior workmanship.

Naturally, parties who seek to reap some of the harvest of these years of labor are not wanting, and the consumers are compelled, in self-protection, to examine particularly the quality of the ware, and to guard against the cheap imitations which are so numerous. The integrity and reputation of the name of Rogers is so well established, that the guarantee of quality. To enable purchasers to select the genuine and best "Rogers goods," we therefore were long ago adopted, and the Rogers name is now placed on the goods may be relied upon as an infallible test of quality. The most prominent name in 1847, Rogers Bros. The most important cannot be given in this date as the Rogers name is now a star, "Rogers & Co." All articles bearing either of these prefixes are genuine, are made by the parties who have been referred to in the Rogers name, and are guaranteed by the Meriden Britannia Company to be of the very best quality.

"What is it, my child?" she said, in a low tone. "Are you faint? Would you like to go?"

"No, mother," the girl answered, calmly; "there is nothing the matter with me."

But as she spoke she released her hand from Lady Ellison's with a little pressure, and moved across to the window. Mr. Burke's eyes were fixed on her as she was white as death. The grave, tender gray eyes which watched her so anxiously came back slowly from their scrutiny clouded with pain.

"Would you not think it advisable to send for further assistance from London?" Mr. Burke said; and as he spoke Clara turned from the window, and looked at him with her long look of supreme contempt and indignation.

"I do not question Superintendent Barker's ability," she said, and added; "but a second opinion might be desirable."

"Indeed I think so," Mr. Fetherstone said, quickly, like a man who saw a way out of his difficulty. He had some slight acquaintance with the Chief Constable of Police, and I will send him a note by to-night's post."

There was a moment's pause, and he will send me some one to help us out of the difficulty," said Ted, in a relieved tone. "Clara," he added, going to her side, "is not the alms for you?"

"No," she answered, shortly; then she came quietly forward, but just as she was about to speak Mr. Burke looked up eagerly.

"You know," he said, quickly, "that I almost think I know something of this?"

"You, Dick?" cried Ted. "What do you mean?"

Clara was standing beside Ted, and almost involuntarily she caught at his arm. She was white and trembling, and the young man saw that she was incapable of standing alone. He put her into a chair, and holding her hand in his, waited for Mr. Burke's explanation.

REAWAKENED MEMORY.

How Often a Very Simple Thing May Restore the Connection.

Two years ago a young man living in a Vermont village, having finished his academic education was ready to enter college. But just before the day appointed for his departure, he was seized with a severe attack of suffering he slowly recovered his health, but discovered that his mind had lost the knowledge acquired by his previous studies, and that his knowledge of mathematics, all were gone, and his mind was a blank in respect to his preparatory studies. His doctor prescribed that he should rest his mind, and familiarize himself with the few simple details of light work.

He obeyed the advice, and found, in his old habit of doing things carefully, the echo of the master that brought back his old knowledge.

Before his illness the young man, in order to earn a little money, had worked in the village church, sweeping it out, cleaning the lamps and doing all the work of a sexton. He now resumed this work, and by the physical labor he was able to keep his mind from puzzling itself about its loss of memory.

Several weeks went by without bringing any change in his condition, and on a fine Sunday evening a stranger entered the church, and as the sermon was a dull one, gazed curiously around until his attention was attracted by the lamps on the wall. He noticed that all the wicks were so carefully trimmed that there was not an irregular flame to be seen. He wondered as to who would be the careful sexton, and happened to be in the place the following Sunday, he again noticed the same uniform trimming of the wicks.

Passing the church the next day, and seeing the door open, he walked quietly in, and saw the young sexton sweeping out the general side. Looking closely at the young man, the stranger asked: "Do you do all the work about the church?"

"Yes, sir."

"Do you trim the lamps?"

"Yes, sir."

"Why do you trim them in such a peculiar way?"

"I don't know what you mean?"

"Why, the flames are all alike."

"Oh, but you say they are all alike. You would not have them uneven, would you?"

"No," answered the stranger, with a smile. "I should think that for your care, and the sake of the church, you would make them all the same exactly if it were superimposed on them."

"Superimposed! I don't know what you mean by that."

"Certainly, if polygons, having equal sides and angles, are superimposed, the result is a square."

Before the stranger could finish his sentence, the student threw down his broom, rushed frantically out of the church, and across the street, and in a few minutes he astonished his mother by exclaiming, in tones of triumph, "Mother, I know that the sides of the right-angled triangle are equal to the sum of the squares of the other two sides!"

In a moment his school knowledge had come back to him, bathed in his mind by the mention of superimposed figures.

The "Rogers" Name On Spoons.

At the world-wide celebrity of the Rogers stamp upon silver-plated spoons has stimulated the growth of many a habit which should be interesting to recall briefly the history of this famous brand. In the year 1847, only seven years after the first application of electricity for silver plating articles of domestic use, the first object bearing the name of Rogers was manufactured in Hartford, Conn. The three brothers who originated the manufacture, and who had the surname of Rogers, placed upon the market a class of goods greatly superior to anything previously known. The venture was carried forward for considerable time, until it was found that the high quality of the ware could only be maintained profitably by the employment of greater capital and resources than the brothers had at their disposal. They were, consequently, obliged to suspend, and the business was sold to the Boston Britannia Company, of Meriden, Conn., who required thereby not only the established trade-mark, but also, during their lives, the services of the originators. The facilities and able management of the new owners enabled them to maintain and improve the high quality of the ware, and it is due principally to them that the Rogers name has become so famous for superior workmanship.

Naturally, parties who seek to reap some of the harvest of these years of labor are not wanting, and the consumers are compelled, in self-protection, to examine particularly the quality of the ware, and to guard against the cheap imitations which are so numerous. The integrity and reputation of the name of Rogers is so well established, that the guarantee of quality. To enable purchasers to select the genuine and best "Rogers goods," we therefore were long ago adopted, and the Rogers name is now placed on the goods may be relied upon as an infallible test of quality. The most prominent name in 1847, Rogers Bros. The most important cannot be given in this date as the Rogers name is now a star, "Rogers & Co." All articles bearing either of these prefixes are genuine, are made by the parties who have been referred to in the Rogers name, and are guaranteed by the Meriden Britannia Company to be of the very best quality.

"What is it, my child?" she said, in a low tone. "Are you faint? Would you like to go?"

"No, mother," the girl answered, calmly; "there is nothing the matter with me."

But as she spoke she released her hand from Lady Ellison's with a little pressure, and moved across to the window. Mr. Burke's eyes were fixed on her as she was white as death. The grave, tender gray eyes which watched her so anxiously came back slowly from their scrutiny clouded with pain.

"Would you not think it advisable to send for further assistance from London?" Mr. Burke said; and as he spoke Clara turned from the window, and looked at him with her long look of supreme contempt and indignation.

"I do not question Superintendent Barker's ability," she said, and added; "but a second opinion might be desirable."

"Indeed I think so," Mr. Fetherstone said, quickly, like a man who saw a way out of his difficulty. He had some slight acquaintance with the Chief Constable of Police, and I will send him a note by to-night's post."

There was a moment's pause, and he will send me some one to help us out of the difficulty," said Ted, in a relieved tone. "Clara," he added, going to her side, "is not the alms for you?"

"No," she answered, shortly; then she came quietly forward, but just as she was about to speak Mr. Burke looked up eagerly.

"You know," he said, quickly, "that I almost think I know something of this?"

"You, Dick?" cried Ted. "What do you mean?"

Clara was standing beside Ted, and almost involuntarily she caught at his arm. She was white and trembling, and the young man saw that she was incapable of standing alone. He put her into a chair, and holding her hand in his, waited for Mr. Burke's explanation.

BY ANNIE L. JACK.

When at the door was a timid look, and the woman rushed to open it. "Hail," she said, "you have come," and she entered without a word and took the man by the hand. "I have been waiting for a sudden aspect of affairs, but did not shrink from him. 'I have saved my train,' he said, at length, 'four years in the wilderness, and I have come back. I always have a feeling that it was Talcott's fault somehow, but cannot bring it home to him. I was Squire Talcott's business man, and he has been the cause of my hardships." He paused. Even in his old age, meeting her, and the child he had never before seen, he could not forget the punishment of the man who had been his friend. But he needed to know some of the inward happiness of this faithful wife who had remained near and helped to wipe down his shame, thawed even his poor broken spirit, and he was persuaded to cast

"This chilly weather makes me think of my poor, dead husband," said a widow, as she sat down beside a lady, close to the stove. "He was always so cold, poor man, and he used to wonder if he ever would get warmed through. He was so miserable when he was cold, poor man, but it is a great comfort for me to feel that he is happy now."

[illegible]

A lady who received through the post office a few days ago a postal card containing 1,030 words written by a gentleman, replied on a card containing 1,040. That should teach him a lesson, and go far toward making such foolishness unpopular with the male sex. A man might as well attempt to get the last word, as the next words with a woman.

This universal joy of Christmas is certain-

The Jailer's Wife.

It was then the "oon" man's turn to tell story, and he cleared his throat and began:

Two Different Boxes

Ray understood and tried to look interested, though a little doubtful.

"I don't hardly know how," said he; but I'll try next chance I have."

THE FARM.

A BALANCE GATE.

The difficulty with most swinging gates about the farm, on roads and pathways used in winter is, that when we have a heavy fall of snow, they cannot be used until the snow is cleared away. We give here a plan of a

A BALANCE GATE.

TENDER FOOTED HORSES.

Horses' feet become tender from many causes. Some of the ailments are curable, others must be palliated or relieved, if possible, with little hope of cure. This is especially true of chronic laminitis (founder) and navicular disease (sole joint lameness). In these diseases the horse "pinks" in a marked manner, limps often badly and manifests tenderness when tapped with a hammer on the sole. He could be relieved from all labor and turned barefooted into a soft pasture for a few months, a permanent cure might be effected. However, he must be used, it may be done with very little suffering to the horse, by applying an elastic steel plate over the whole sole, and stuffing the space between the plate and the sole with oakum, saturated with pine tar. We have employed this method with great satisfaction in the case of a horse tender from navicular disease, as nearly as we

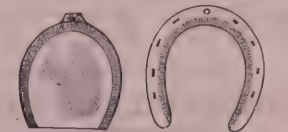

FIG. 2.—SHOE.

FIG. 1.—PLATE.

could determine, in both front feet. There was moderate contraction, the feet being quite small, the heels were high, and the bearing and wear of the feet chiefly at the toes. This indicated tenderness of the heels, and look of frog pressure. On soft ground, the horse stepped squarely and travelled quite free. On hard ground, he crept along on his toes and could not be urged off at a "gruggy" trot, or amble. The farrier cut his heels well down, preserving the surface as even as possible and not touching the frog, sole, or bars. Plates shaped like figure 1, were cut from an old saw-blade, the temper having been drawn. At the toe, a tongue of metal was left, and a hole punched in it. The edge of each plate was struck into the beveled upper surface of the shoe, giving it a slope and a position when in place farther off from the sole than if it were flat. When shoe (fig. 2) and plate and hoof were ready, the plate was retamped, riveted to

the shoe, and the toe of the hoof then rasped, or cut out a little, so that the tongue would not press unduly. A cushion of hard oakum was made and laid in, after two nails were driven, and before they were clinched, then the shoe was rasped on (see fig. 3), and the clinches driven into notches out with the rasp. Finally, as much more oakum as could be provided in at the heel, was shoved under the plate, care being taken not to let it lie in lumps, but to make an even firm cushion, bearing equally on sole and frog. The result was very satisfactory. The horse has not taken a really lame step since. He travels as if he were on the soft turf of a meadow, over rough hill paths, and on McAdamized roads. The plate of oakum are quite flattened down, but the frogs grow so fast that they keep up the pressure, which, after more than three weeks, has not become so excessive as to be troublesome.

FIG. 3.—PLATE APPLIED.

HERE AND THERE.

Hartford now prohibits the selling of Sunday newspapers on the streets after 10 a. m.

Mr. Potter, an English shipbuilder, obtained a separation by reason of his wife's cruelty.

Cheshire (Mass.) farmers are disposing of their surplus apples at \$10 a ton to be shipped to a mill near Mexico.

The next Connecticut Legislature will be asked to appropriate \$1,500 or \$2,000 to assist the Hartford fire guard in a trip to London.

The California quail is successfully domesticated upon several English estates; but our eastern variety resists all attempts at acclimation in Britain.

It is reported that the editor of the new edition of Webster's Dictionary, President Porter of Yale, has decided to admit "bulldozing," "boycott," and "dude" into its precincts, but is hesitating about "mugwump."

A peculiar band established at Log Crosses, N. M., which is composed of vegetarians and "faithfuls," who have a new Bible called Oshespe, is reported to have in its community Dr. Tanner of extended fasting notoriety.

The Buck Stone, a well-known Druidical rock in the Wyke valley, England, which was overthrown last June, has been replaced in its former position by subscribers to a fund for that purpose, the expense amounting to \$2,500.

Joe men along the Kennebec and Penobscot Rivers are preparing to gather this winter's crop. If all the Maine houses now empty be filled, it is said the crop will be the largest ever gathered in that section—footing up far above 1,000,000 tons.

A steamer laden with corn from Chicago arrived in Buffalo City, Mass. Day. Along the route a number of light-house keepers left their lanterns especially to help the vessel on her way, for the department had ordered the light-houses to be closed for the winter.

A Gloucester fisherman who had been earnestly disabled in an open boat on the Banks was given \$500 two years ago by his fellow citizens. He opened a shop with this money, and prospered so well that on Christmas he returned the \$500 to the city, for the poor.

The King of Bavaria's troubles with creditors and bailiffs have, according to Parisian gossip, become so intolerable that he has been meditating marriage with a millionaire widow, the Baroness von Krammer. To this messianism, however, he has been unable to bring himself at the last moment.

The custom in vogue in Massachusetts of handing around driving water to persons in railroad trains has been adopted by a Boston theatrical manager. The liquid is dealt out between acts—the service being performed by the actors, and without the intervention of a thirty person leaving his seat.

British widowers with eligible deceased wives' estates need not despair. The Marriage Law Reform Association is in a position to state that its majority in the new House of Commons is larger than in the last, in which their supporters practically num-

bered two to one. They are going to introduce their bill in each House in the coming session.

The great Burness river, the Irrawaddy, is much like the upper Missouri in respect to its sand bars. These often accumulate, or shift across the channel in a single night, and steamers caught on them have sometimes to stay there a month. A new pilot is needed about every ten miles, which is all the space he can keep himself informed upon from day to day.

One of the officers of the British force in Burma concludes that stomachache is a widely prevalent ailment in that region. All kinds of food are said to be unwholesome, and when a sufferer plasters a flask of gold leaf upon the spot corresponding to the seat of his own disorder, and the abdomen of this flask had been caused to protrude in a most extraordinary degree by the plastered offerings of health seekers.

William Henry Brown, a Pittsburgh colored man, has received the highest award in the Shennandoah valley farm of 150 acres from a Virginian named James Spangler, the son of a wealthy planter, who played with Brown when both were boys, and who was badly wounded in the Confederate service at Fort Harrison and captured. Brown, who was serving in the Union army, said that Spangler received kind treatment as a wounded prisoner.

A party of Australian savages have been attracting the attention of several of the learned societies of Europe, and M. Topinard presented three of them—man, woman, and child—to the Societe d'Anthropologie. It was found that they could count only to the number three; for four they said "many," and for five "a hand." But the man showed mental capacity, for he spoke both English and German. M. Dally took advantage of this fact to make a delicate inquiry concerning cannibalism, and was informed that he had often eaten human flesh and enjoyed it.

As stated in the Provincial School Catalogue the maximum of daily school work considered in Prussia to be compatible with health is fixed at from seven hours a day for children of 11 years, up to nine hours for those of 16; and upwards. The standard is thought too high by many German teachers and doctors, and Dr. Roth states that 64 per cent. of those who should work after graduation are much below the normal standard of health. The standard in Denmark is still higher, and a recent Government investigation finds that 29 per cent. of the boys and 41 per cent. of the girls are "sloppy" from confinement and mental strain.

Some interesting facts concerning the relative vitality of males and females are shown in the forty-sixth annual report of the English Registrar General. In each 1,000 living persons there are 457 males and 543 females; but for every 100 females 103 males were born. The death rate was lower in the females, and the difference is greater in early years. In both sexes a diminished death rate is taking place. This is more marked in females than in males, at all ages. The improvement is especially notable in women up to 44, and reaches 28. The mean age of the population of 10 years of age is 41.35, and of a female 42 years. The annual expectation of life is, however, 45 years, nearly the same in both sexes.

Imprisoned in a Wreck.

Mr. B. P. Foterlee, keeper of the Wry-Bird Light, relates the following remarkable personal experience, while on a fishing voyage to the Grand Bank of Newfoundland eight years since:

"My father and my grandfather were both abolitionists, and when I was a boy, I used quite frequently to hear them read from the Scriptures the story of Joseph in these days, however, the account made no very great impression on my mind, but I now read it with a peculiar interest and sympathy for I sometimes think that there is not probably a living man whose experience so closely resembles the ancient prophet's as my own.

"Like many other Cape Ann boys, my first experience of life was as a fisherman. I went to the 'Bay,' as we used to term the Gulf of St. Lawrence, when I was fourteen years old, shipping on the schooner *Secret* upon 'half-lives,' as was then the phrase, meaning that I had half the cod, halibut, or mackerel which I could catch, the other half going to the owner of the vessel.

"For five years I was out on 'half-lives,' every season, and made fair wages. The last year I was on the schooner *Edna* and *Harold*, Skipper Croom. There was a crew of eleven, including the captain and cook, a mulatto named Desay.

"On the night of the 20th of August (this being our usual trip back summer), we were run down by some large vessel, steaming, I judged by the sound, and every soul on board drowned save myself.

"The schooner was lying at anchor, with lights up as usual. I had turned in that night shortly after eleven o'clock; there was then no fog, but a mist may have risen later, as it often did.

"From a sound nap I was awakened suddenly by a loud shout of 'Ship ahoy!' and a cluster of feet on the deck. At the same instant I was aware of a rushing, rattling noise, and a deep sound like the rumbling of a prepper's saws.

"There were shouts, too, at a little distance. Capt. Croom and two sailors—Cates and Smith by name, who were in the cabin, but less sound asleep, perhaps, than I—jumped out of their berths, and rushed up the ladder. But before I could follow their example, I felt the swash of a large wave against the schooner, followed by another, so instant by a horrible crash against our broadside.

"I was thrown headlong. The lantern fell off its peg, and went out. Buck boards, bed-clothes and boxes fell about me and upon me.

"Then came another terrible shock, accompanied by a rushing noise, and I could feel—horrible sensation!—that our little vessel was being borne down and careening overboard! There was a ponderous, grinding, crunching noise overhead, mingled with terrified shouts and cries. Then the water rushed into the little cabin, drowning me in a moment.

"I rose, half-swimming in it, amidst the boxes, boards and clothes. For some moments the same heavy grinding noise continued overhead. Then the keel of a large vessel passed over us—crushing us down! I even heard the thrashing of her huge screw.

We were at that moment twenty feet under water, thrust bodily down by the screw's weight and momentum of the steamer, and that, too, before our little craft had time to fill or sink; for the instant the steamer's keel passed off her, I felt the schooner give a mighty lurch, which pitched me headlong again; and then she rose to the surface.

"I thought and said, 'What a terrible thing! I raised a foothold, and standing up, forced my head clear of water. I was still in the cabin, but the water came up to my waist. I could see nothing, and I felt the schooner give a lurch, and then she sank. I thought for a time that the schooner had sunk, and I wondered what the water did not fill her and down she went. A few moments later, I felt the motion of the waves, and knew then that we were still afloat.

"I say, for I did not then know that I was still afloat. I felt the schooner give a lurch, and then she sank. I thought for a time that the schooner had sunk, and I wondered what the water did not fill her and down she went. A few moments later, I felt the motion of the waves, and knew then that we were still afloat.

"I say, for I did not then know that I was still afloat. I felt the schooner give a lurch, and then she sank. I thought for a time that the schooner had sunk, and I wondered what the water did not fill her and down she went. A few moments later, I felt the motion of the waves, and knew then that we were still afloat.

A few moments later, I felt the motion of the waves, and knew then that we were still afloat.

night, I will not attempt to describe. I was in constant apprehension lest the schooner should roll over and sink.

"The wind fell toward morning, there was fog again, I concluded, for the light I heard a bell and horns, at a distance, which I knew proceeded from fishing-vessels, signalling to their boats. Repeatedly I shouted at the top of my lungs, but was unable to attract attention. The boat

"That day three or four seal came about the hull, and often climbed on it; I could hear them grunting and 'blowing' in the water, as they dashed about the schooner; and during the afternoon the hull drifted amongst a school of herrings. I could hear the patter of the herrings against the planking outside; and hundreds of them came in at the gangway benches, filling the water in the cabin.

"I could see them dimly, and with a sin had I dipped up fifty or sixty, which I put in a box. For by this time I had become so nearly famished as to eat these raw fish. But I was even more thirsty than hungry, and at times felt tempted to drink my fill of the salt water, though I knew from the testimony of sailors whom I had heard talk, that it would be better to drink it and be crazy than to live longer, in a sane condition, in such adversity.

"Another night of comparatively calm weather passed; and on this night I slept peacefully. But was aroused an hour or two before daylight by some panderous body—whom I think must have been either a shark or a whale—sporting about the schooner. First it butted its head against the hull (rooting it about as a pig might a pumpkin). Several times the creature gave vent to a deep, monotonous groan. These may have been a number of them instead of one; and this was perhaps their mode of communicating with each other. I felt some fear lest they might roll the vessel over.

"Suddenly one of the creatures dealt the vessel a tremendous blow—with its tail, probably. For a moment I was nearly stunned by the concussion, and then waited breathlessly for the next blow, dreading a repetition of the stroke. But I heard nothing farther from the bands of the devil, and the blow was apparently their parting slap.

"During the day which followed, I experienced considerable difficulty in breathing, and was seized with dreadfully sharp pains in my chest. When these had subsided I fell asleep, and may have slept all the following night, being, as I now think, in a more insensible condition. From this crisis for some ill-conceived notions of lethargy I was aroused by the sound of voices very near. It was light again; and on listening for a few minutes, I heard ears. I feared lest they might be the crew's, and I shouted—and was heard, I think.

"For the voices and ears occurred suddenly. Then I heard the voices again, still quite high, so close that I could distinguish that the language was Canadian French.

"I now shouted 'Help! Help!' as loudly as I could, for God's sake I screamed, 'Help me! Get me out of this!'.

"Then I listened again with feverish anxiety. For a moment or two there was a silence, but then I heard a sound of oars, dipping softly in the water. At first I thought that they were coming close in, but soon found that they were going away.

"I then shouted and called again, and then stopped to listen. For all answer, I heard the oars faintly—stealing away.

"Such a fit of despair and madness then came over me that I began to shake myself out of it. In my frenzy I cursed them for brutes and beasts, without hearts. The superstitious fools, I do not know, had taken my cries for some ill-conceived notions of spirits; for I have reason to know that numbers of these provincial fishermen are very ignorant and credulous in such matters.

"I now gave way to despair. Probably I wandered in my mind somewhat, and may even have drunk salt water; for I have no very distinct remembrance of events, subsequent to that time. I remember, however, that when I was roused up by a sudden report, like a violent thunder clap, at no great distance, preceded by a rushing, spattering noise, which seemed to pass directly over the hull.

"I did not know what it was at first; but the sudden sound roused me and brought me back to a more intelligible consciousness of my situation. I thought, too, that I heard voices at a distance. A minute or two passed, then another heavy report broke on my ears, and at the same instant I felt a violent shock against the hull, accompanied by a splashing, cracking noise.

"I was in bad condition; indeed, I think that for some hours I was not wholly in my right mind; but I received very kind treatment from the crew, and soon after I was picked up and placed in a small boat, and then taken to the shore.

"I was in bad condition; indeed, I think that for some hours I was not wholly in my right mind; but I received very kind treatment from the crew, and soon after I was picked up and placed in a small boat, and then taken to the shore.

I was then taken into St. John's, Newfoundland; and two weeks afterwards sailed for home on the steamer *Arcticon*.

HAVE A SMILE.

Job never asked for a new trial. Talk about women being flighty! Look at bank cashiers.

We may not like hotel keepers, but we have to put up with them. An amendment to the constitution—A wooden leg.

Thanks to Dr. Pasteur. Boy to companion with a dog. "Sit him on me Jimmy, I want ter go be fairs!"

"Struck down," as the barber said when he shaved the first crop of fuzz from a youth's chin.

King Kalakaua is reported as wishing to dispose of his kingdom. Perhaps he wants to buy a horse.

The stars themselves are the best astronomers. They studied the heavens before Adam had a telescope.

The scientist who says that a person could not live over five days without water is suspected of being a nihilist.

"We rail-readers have to go, as well as others," said a brakeman on learning of the sudden death of Vanderbilt.

Two milk dealers have been fined \$50 each for selling adulterated milk. Some mischievous boys must have dropped chalk into their pumps.

A little boy whose sprained wrist had been relieved by bathing in whiskey surprised his mother by asking: "Did papa ever sprain his wrist when he was a boy?"

De Lewis says hot water will cure every complaint. It certainly helps a run punch in cold weather, and may stop some complaints in that direction.

A drummer who has been in South Florida for the past week says that the best of that section is so tough as to render it almost impossible to even stick a fork in the gravy.

A Toronto man was recently arrested for sticking needles into his wife. And yet the man who gets his arm filled with pins hugging somebody else's wife has no redress at the hands of the law.

The talk of the day—Mrs. A. "I hear that the Mountebankings are going to spend the Winter in Paris." Mrs. B. "Indeed you surprise me! When were they bitten?"

A sign reads: "Lightning Photographer." We should think it would be hard for a photographer to induce a bolt of lightning to sit still and look pleasant long enough to have his picture taken.

It is all right that men should tell, but it is a temporary nuisance to a woman to get her living by the sweat of her brow. Perspiration of the forehead is death to curls, and no lady as a lady can be expected to exchange her curls for the bang.

As the country grows the Indian disappears. Yes, but as the Indian grows the whiskey disappears. Now the question is, which do we want to get rid of—the Indian or the whiskey?

Judging from the pictures we have seen of him in the newspapers, we should say that about a score of William H. Vanderbilt have just died. It is quite remarkable that so many gentlemen bearing the same name should resemble each other so slightly.

"Have you read the 'Daemons of Man'?" asked Clara, looking over her bookshelves. "No," said George, a little timidly. "Don't care for it; but I like to get the scent of women." It is currently reported that he got it the very next Sunday night last year.

"We bend the knee, but not the elbow," enthusiastically exclaimed an orator at a temperance meeting, the object of which was to get the orator to bend the knee.

The Tribune.

FRIDAY, JAN. 22, 1886.

Up to the present time, the Militia department has authorized the payment of a fraction over \$4,000,000 on the expenses of the Northwest rebellion. It is supposed that the total cost of the insurrection will be about \$4,000,000.

Mr. Brailaugh has at last been allowed to take the oath and become a member of the British House of Commons. The electors of Northampton returned him at the recent general election by over five hundred of a majority a majority larger than ever. It is not to be supposed that they did this because they approved of his particular religious views. They elected him because of his aggressive reform tendencies. He is the great advocate of the abolition of perpetual pensions, a system which has been too long a disgrace to the mother country.

The Imperial Parliament was opened yesterday with great pomp and splendour, the Queen being present in person. Her Majesty takes this method of showing her approval of Lord Salisbury's administration. No one while Mr. Gladstone was premier did she appear at the opening of Parliament. The cable also informs us that several dukes and other nobles threaten the disruption of the liberal party unless Mr. Gladstone changes his policy on the Irish question. The leader of the opposition, who is as much as ever the real, though uncrowned king, of the British race, must smile at all these petty slights. It is not by royal favor or the support of titled magnates that a statesman in England retains power in this age of free democracy. John Hodgkiss and his brother workmen now control the ballot-box, and with these at his back Mr. Gladstone can proceed to carry out those important reforms which now await completion at his hands.

Mr. George Stephen, President of the Canada Pacific Railway Company, has been created a baronet by Her Majesty the Queen. No Canadian is more deserving of such an honor. Mr. Stephen has risen from the ranks of a common laborer to a position of great wealth and influence. He has been a merchant, a banker, a financier of broad views, who completely understood the business interests of the country. As President of the C. P. R. Company he has contributed more than any other man to the success of their great undertaking. His shrewd foresight and indomitable energy have, in the face of the most severe criticism and hostile opposition, enabled him to carry to a successful completion the greatest railway enterprise of the age. We have always believed that the Canadian Pacific Railway would be a great advantage to the whole Dominion, and feel confident that under its present capable management it will pay its way. Already the introduction of Manitoba wheat into the older provinces has lessened the price of bread to every corner.

VILLAGE COUNCIL.

DESERONTO, JAN. 18th 1886.

The Council elect met in the Council Room at 11 o'clock a. m. Members present, Wm. E. Aylsworth, Reeve, and R. H. Baker, Jas. Cameron, John Edwards and Geo. Stewart, Councillors.

The members elect having made and subscribed the necessary declarations of qualification and office proceeded to transact business, the Reeve presiding.

The minutes of the last meeting were read and approved.

The following accounts were ordered to be paid:

Mr. McQuinn, 1 load wood, \$1.00

The Rathbun Co., 1 Scrapper for Sidewalks, .75

Benjamin Brewer, repairs on Town Hall doors, .75

Moved by Mr. Cameron, sec. by Mr. Stewart, that Mr. John McCullough be appointed assessor for Deseronto for the year 1886. Carried.

The Reeve introduced a By-Law to appoint Mr. McCullough, Assessor, which was read and passed.

On motion of Mr. Edwards, sec. by Mr. Cameron, Mr. R. Rathbun was appointed Auditor for 1886 and the Reeve appointed Mr. A. H. McQuinn.

A By-Law introduced by the Reeve to appoint Messrs. Rathbun and McCullough, Auditors was read and passed, being numbered 100.

On motion the following were appointed a Local Board of Health for 1886:

Dr. Clinton,

Mr. R. W. Rathbun,

Mr. F. C. Whitton.

The Reeve introduced a By-Law appointing Dr. Clinton, Mr. R. W. Rathbun, F. C. Whitton and the Reeve and Clerk of the Village as a Board of Health for the year 1886, which was read and numbered 110.

Moved by Mr. Baker, sec. by the Reeve, that Messrs. Edwards, Cameron and Stewart be a Committee to have Council Room and Town Hall thoroughly cleaned and repaired. Carried.

The consideration of the Hyndley case having been laid on the table, the meeting adjourned.

That the Reeve and Councillors Baker and Stewart inquire into the case and report to the Council at its next meeting. Carried.

Council adjourned.

K. N. Irvine, Clerk.

The Locomotive Works at Kingston will be opened Feb. 1st. They will employ one hundred men.

A BIGAMISTS SPEEDY DOWNFALL.

DESERONTO, Jan. 18.—A bigamy case, which resulted in the prompt punishment of the guilty party, occurred here on Saturday. In the autumn of last year a young man named Silas E. Shaper, who was engaged in peddling sewing machines and all verities in this city, made the acquaintance of a girl named Maud Vandewater, between 15 and 16 years of age, who had lived with her grand parents on Foster avenue. He at once began paying his addresses to her, and after two weeks' courtship proposed and was referred to her grand father, who refused his consent owing to Shaper's lack of means and prospects, and the girl returned his presents, after which he left town. On Tuesday last she received a letter from him from Omense, in which he informed her that he had established a grocery business and was doing well, and stated that if he could be reallocated to her favor he would come at once. Miss Vandewater showed the letter to her grandparents, whose excess being removed, an affirmative answer was sent. On Thursday the girl received another letter from Shaper, in which he stated that business would prevent his coming as early as he wished, and asking her to send her photograph, which she mailed to him with a love letter the same day. On Friday, however, Shaper arrived with a horse and cutter, and, urging an immediate marriage, the couple were united by the Rev. J. E. Clarkson, pastor of the Bridge-street Church, between 11 and 12 o'clock on Saturday morning. After dinner they drove to Redford's, on the edge of Sidney, about ten miles from town, where Shaper was arrested by the chief of police of this place as he was putting up his horse in the stable. The cause of the arrest was, that on Saturday morning, the chief received a telegram from Mr. Morris, conductor of the Peterboro' train asking him to meet the train at North Hastings junction. He did so and was put in communication with Mr. E. Dancy, of Omense, and Mrs. Shaper, wife of Mr. Silas E. Shaper, of Omense. The former stated he had loaned his horse and cutter to Shaper, who said he was to see a sister of his wife who was very ill. Meeting Mrs. Shaper, he learned that the story was false, and she had received Miss Vandewater's last letter to her husband, and Mr. Dancy had started for Belleville, the former to look after her husband and the latter to recover his horse and cutter. The chief at once arrested Shaper, who was taken to the cells and confronted with his wife. He at first denied all knowledge of her, but subsequently acknowledged his guilt. Mrs. Shaper, who was formerly Miss Kate Walsh, of Lindsay, was married to Shaper on the 1st December last. She was the daughter of a widow, and had about \$600 in cash when she married. She established herself in business. He is about 25 or 30 years of age, and states that he comes from back of Cornwall. He was arraigned in the Police Court this morning, and elected to be tried summarily, and pleaded guilty, and was sentenced to three years in the penitentiary.

HOW TO BUILD UP A TOWN.

(Going the rounds, no credit attached.)
Talk about it.
Write about it.
Speak well of it.
Help to improve it.
Beautify the streets.
Advertise in the newspapers.
Elect good men in all offices.
Speak well of its enterprising public spirited citizens.
If you are rich, invest in something, employ somebody; be a "rustler."
If you don't think of any good word to say, don't say anything bad about it.
Remember that every dollar you invest in a permanent improvement is that much on interest.
Be courteous to strangers that come among you, so they may go away with good impressions.
Always cheer up the men who go in for improvements. Your portion of the cost will be nothing unless what is just.
Don't kick about any necessary public improvement because it is not at your own door, or for fear that your taxes may be raised 10 cents.
Never condemn a local paper. If it has dealt wrong with you, write to it, the editor about your case. If he is wrong, he will lose no time in telling it to the public.
If you are a business man don't advertise merely to "help the printer along," advertise to help your business and the town along.

AN AGE OF DISCOVERY.

We certainly ought to appreciate the fact that we are living in an age of progress and discovery, this is especially appreciated by all persons that have been afflicted with Rheumatism, as West World's Wonder or Family Liniment is a positive cure for Rheumatism. It is invaluable for Cuts, Sprains, Bruises, Burns, Scalds and all diseases requiring external application. Sold by W. G. Eggar, druggist. Price 25 cents and 50 cents per bottle.

A choice lot of Dairy Butter just received at THE BIG STORE.

Save your money by ordering all newspapers and magazines at THE BIG STORE office.

DEATHS.

BOWEN.—In Napanee, on Sunday, Jan. 10th, 1886, Sarah Bowen, aged 79 years.

EMPEY.—In Napanee, on Sunday, Jan. 9th, 1886, Peter C. Empey, second son of Thomas Empey, aged 22 years and 4 months.

HAM.—In North Frederickburgh, on Monday Jan. 11th, 1886, William F., only son of Mr. Donald Ham, aged 20 years and 5 months.

WILSON.—At her late residence near Deseronto, on Wednesday, Jan. 20th, Mary McMaster, relict of the late James Wilson, aged 88 years.

MARRIAGES.

O'BRIEN.—FOOTE.—By the Rev. D. O. Crossley, on the 16th inst., at the residence of Mr. Thomas Crossley, Deseronto, Mr. John O'Brien, of Uxbridge, to Miss Alice Foote of Deseronto.

DESERONTO MARKET.

FRIDAY, JAN. 29, 1886.

LOCAL ITEMS.

"Lady of Lyons" on February 4th.

St. Valentine's Day comes on Sunday this year.

Five-cent scribbling books, ruled, at **THE TRIBUNE OFFICE.**

Daily Globe, Mail, News and Witness for sale at **THE TRIBUNE OFFICE.**

Mr. James Grant has been appointed sexton of the Roman Catholic Church.

Mr. Wm. Patterson is moving into King Street, near the corner of Thomas-st.

Save your money by ordering all newspapers and magazines at **THE TRIBUNE OFFICE.**

The K. & P. Railway Co. are carrying their docks at Kingston for shipment of ore, etc. next summer.

Ms. D. Kavanagh, Reeve of Duncannon and Faraday, has been elected Warden of Hastings by acclamation.

Deseronto probably excels all other towns in the number of children attending its various Sunday schools.

Honoury, the Kingston incendiary, pleaded guilty on the trial and was sentenced to fourteen years in penitentiary.

There was a large market on Tuesday, there being a good attendance of farmers from the surrounding country.

D. L. Paul, of Kingston, was sentenced to one year and three months imprisonment for getting money under false pretences.

The steamer Empress of India, now lying at Picton, is undergoing extensive repairs this winter, her deck being raised two feet.

The Kirk Session of the Church of the Redeemer give at home to the members of the congregation in the church parlor this evening.

Rev. Father McDonough has so far recovered as to be able to resume his duties. He conducted services in Deseronto last Sunday morning.

We trust that all who have been borrowing and reading their neighbor's **TRIBUNE** will "wear off" and determine to have a copy for themselves.

The main driving belt at the machine shop broke down on Monday afternoon and the shaft factory had to close down for two hours in consequence.

A pleasant parlour social, under the auspices of the L. M. Association of the Church of the Redeemer, will be held at the residence of Mrs. E. W. Rathbun last Friday evening. Financial results highly satisfactory.

Rev. Prof. Mowat, of Queen's College, preached twice in the Church of the Redeemer last Sunday to appreciative congregations. Rev. E. J. Craig took three services the same day at Newburgh and Clark's Mills, etc.

The American Mills says that in Turkey they took the steamship laker up to his shop door by the ears, so that his tent will just touch the ground, and furnish him with a razor so that he need not hang there a second longer than he wants to.

The Young People of the Methodist congregation have taken action and decided to hold their Concert on the evening of Wednesday, February 10th. They will receive elaborate arrangements and will have nothing undone to make this the most successful entertainment of the season.

Rev. Dr. Bredin, of Colborne, will preach the annual educational sermon in the Methodist Church next Sunday morning and evening. There should be a large attendance on the occasion as the Dr. is one of the most eloquent clergymen in the Methodist Church in Canada.

The O'Connor House had a narrow escape from destruction by fire last Monday afternoon. The fire started in the ceiling of the sample room and appeared to have originated from a defective flue. Fortunately it did not gain much headway though smoke issued in dense volumes for a few minutes. The damage done was slight and the inconvenience occasioned by the fire was of very short duration.

LOCAL TRAIN.—

For the benefit of the Travelling Public and to afford accommodation to the people of Deseronto, a mixed train leaves the K. & P. Depot every morning at 7:45 for Kingston. Parties can go to Kingston or Napanee and back same day having about eight hours in Napanee and four in Kingston. Low rates of Fare, Kingston and return, \$2.30. Napanee and return 50 cents.

New year holidays are over and the spirit of business comes upon them in part. It is in order to settle down to a steady and increasing trade. To do this our merchants should not rest satisfied with the goods they have in good shape, fair prices asked, and by proper credit given when necessary, and by proper advertising show purchasers that the goods can be had here as cheaply as to trade in the larger places. That such is the fact there is no doubt, but our stockpilers do not always use means to make it known.

R. C. CARTER,
Deseronto, Ont. Gen. Manager

A FINE line of cheap note paper and envelopes at THE TRIBUNE OFFICE.

Mr. A. H. McGaughey has been shipping four or five loads of finished lumber per day during the past week.

Dr. Izard, the dentist, will be at the Deseronto House on Wednesday the 3rd and Wednesday the 17th of February.

The receipts of the N. T. & C. Ry. thus far in January have been agreeably in excess of those of the same month last year.

Edna is doing a running trade in dialects. Have you seen her stock of fancy goods. The best place in town to squander a dollar.

Cornmeal, Cornmeal, Cracked Potatoes, Crushed Wheat, Rolled Oats, and all kinds of Breakfast Cereals of the best quality at **THE TRIBUNE OFFICE.**

The members of the County Council with the County officers take a trip over the N. T. & C. Ry. to-day.

Parties have already commenced the work of harvesting the ice crop in this locality. The ice is considerably less in thickness than that of previous years.

It is rumored that Councillor Baker intends going into the grain buying business. Such a popular buyer located at Deseronto would be a great boon to the town and district.

Messrs Richardson and Muckleton, of Kingston, spent Tuesday evening in Deseronto, their mission being in the interest of securing closer connection for Kingston with the N. T. & C. Railway.

Farmers express themselves as perfectly satisfied with the prices on the market this week. They all await the advent of more buyers of grain at Deseronto. Next season we will, we trust, find Deseronto a great grain market.

The Rathbun Company have received orders from the Grand Trunk authorities for 750,000 feet of dressed cedar lumber, which will be taken out along the line of the Midland Railway and on the Saguenay peninsula.

WALKER and SPAFFORD are now doing a fine business in Smith's brick block. They have a reputation through all Central Ontario as dealers in the very best article of ice, coffee, and other goods, and will round to-morrow and inspect their goods.

Mr. Wm. Evans, of the shipyard, has been quite ill for a few days, being a victim of influenza, from which he has suffered frequently during the past few years. He has recovered so far as to be able to go east to the province of Quebec on some matters of business importance.

Deseronto is becoming quite a hay market, as evidenced by the great number of loads brought to town last week. It has been coming in late at the rate of fifteen loads a day. Three car-loads have been shipped by the Rathbun Company during the week. We observe that the prices in neighboring markets of the west were a much weaker than at the commencement of the winter.

Another lot of that celebrated Japan Tea has just arrived at **THE BIG STORE.** The assortment is large and the prices are low. The last two years to purchase their tea direct from the tea growing Regions and thus furnish their customers with this delightful beverage at a lower price than can be approached by other dealers, has encouraged them to import a much larger quantity than usual in order to supply their continually increasing trade. Any person who uses their 50c Japan Tea once will have no other kind.

Rev. James SIEVEWRIGHT delivered a highly interesting and instructive lecture on the "Far West" in the West Church last Tuesday evening. He gave very graphic descriptions of that part of our Great Dominion, touching on the history of the recent rebellion, the Indian question, the climate and prospects of the country. His narrations of the experience of the pioneer missionaries of the west were very amusing and instructive. The Reverend gentleman was loudly applauded at the close of the lecture. It is a pity our people do not take advantage of lectures such as these, as it would add very materially to their small stock of information on many important matters of general interest.

The will of Mr. A. McNell, Napanee, has been examined. His wife receives \$15,000, absolute, and the family residence; Mr. John McNell, \$2,000, and his wife a residence in Carletonville; Mrs. Wilson, \$2,000; Miss Kitty McNell, \$1,000; Miss McCabe, \$1,000; Mr. Michael Davern, Newburgh, \$1,000; John D. Cameron, \$500; Mr. Perry, \$500; Miss Joy Lavery, \$300; Hotel Eden and House of Providence, Kingston, each \$200; memorial window in St. Patrick's Church, Napanee, \$500; monument to his father, \$500; monument to himself, \$500. The estate is estimated at from \$50,000 to \$60,000. The bequest amounts to about \$25,000. The balance, it is presumed, will be divided up equally among the heirs.

The *Intelligencer* says:—"Col. Sgt. Wright, who served in the North-West rebellion, was the last of the old soldiers. He had been slightly indisposed for the past week or more, but none thought him seriously affected. Some time this morning Saturday night he awakened his wife, told her he was dying, and immediately expired. The deceased had been caretaker of the Young Men's Conservative Club since the rebellion. He served for twenty-one years in the English army, doing service in India and passing through the Afghan War. He was quite military and unassuming in his ways, but every inch a soldier. The funeral, under the direction of a company of the Midland Battalion, was held from the residence on Coleman street, near the Baptist Church, to the cemetery on Tuesday at 2:30 p.m." The deceased, who resided in Deseronto shortly before the breaking out of the North-West rebellion, was in town last Friday visiting his friends.

PURCHASE your valentines at Egar's.

The snow by law is more honored in the breach than in its observance. Should these things be?

Mr. Frank Solmes, of Solmesville, leaves to-day on a trip to New York, New Orleans, and other points in the great Republic.

Mr. W. H. Lake, who has for many years been in charge of Eagle Mill at Rosemont, has been appointed manager of the Rathbun Company agency at Picton.

We understand that the Orchestra that favored us last performance have generously offered their services for next Thursday night. Thanks gentlemen.

The members of the Parochial Missionary Association of St. Mark's Church are requested to meet at the residence of Mr. J. Hoppes, the president, next Monday evening at 7:30 o'clock.

The Chief is "laying low" for several parties who persist in driving along our streets without sleigh bells. He has succeeded in scaring the owners of fast trotting horses who now take to the ice to speed their fast steppers.

The piano used by the Orchestra at the last performance of The Deseronto Dramatic Association was lent to them by Capt. Anderson, and the company desire to well publicly thank him on their behalf for the generous compliment.

A GENTLEMAN was in town on Thursday prospecting for a place to build a saloon. As he thought we were reasonable, without any long tarrying, to "seek green fields and pasture new."

UNDERGROUND water tanks similar to that in the centre ward should be constructed in the east and west ends of the village. The one constructed under the west end has been done and has been a good investment. This community has been very easy going in the matter of protection against fire.

Mr. JOHN HOPKES, who has for many years been a foreman in the machine department of the Cedar Mill of the Rathbun Company, retired from that position on Tuesday last. Mr. Hoppes has always proved himself a good citizen and has been deservedly held in high esteem by all classes in this community.

The *Mail* says that last Friday afternoon two young men named Mackay and Peter Walker were at work on a scaffold in Toronto when it gave way. They fell about 25 feet to the ground. The fire-proof and iron fall on Mackay cutting and burning him about the head. Walker (recently of Deseronto) was not much hurt.

BELLEVILLE has been suffering from floods caused by the anchor ice carried down the river. The low-lying sections of the city have been under water and the inhabitants exposed to much suffering and inconvenience. With milder weather and a well used of dynamite the water has fallen. The city authorities seem to have been tardy in their efforts to avert the calamity. The Dominion Government might employ an engineer to suggest a complete remedy.

The reproduction of the "Lady of Lyons" next Thursday evening in aid of the destitute will be largely patronized. A citizens' Committee consisting of Messrs. A. L. Richardson, T. Rosch, Jr., D. M. Campbell, F. C. Whitton and W. G. Egar have the affair in their hands and are meeting with every encouragement. Tickets are placed at 25 cts., and reserved seats 40 cts. or 75 cts. a couple. Mr. Cameron presides at the hall at the disposal, and the plan may be seen at the Big Store.

RECOGNIZING the growing importance of Deseronto as a centre of trade, outside parties have been corresponding as to the possibility of securing proper premises for business purposes. There are several openings in this town for the proper men—men who will push and enterprising men, and the number of neat and attractive shops are badly needed, however, to draw this class of business men. Messrs. Stewart, Colp and other capitalists might remedy that state of affairs.

The Ketchikan Concert and Convention Company give a free concert in the Presbyterian School Room on Wednesday evening, Feb. 4th. A rich treat will be given by this talented company who have proved themselves exceedingly popular in other places. They will remain here a week giving lessons in music and singing, thus affording an opportunity of gaining instruction. It is hoped that choirs and all classes will avail themselves of these advantages.

It is to be hoped that "The Lady of Lyons" will be extensively patronized next Thursday night, and a sufficient amount realized to meet the most urgent cases of destitution among us. The dramatic association will perform one of the finest plays in the English language, and we feel sure it will be put on the boards in superior style. Many of us have never seen a good acting play, and those that have will lose nothing by seeing it a second time. The orchestra will be again under the direction of Mr. San Anderson, and as previously, we may expect a rich musical treat.

A CONFERENCE was held last Monday by the local board of health, the City Engineer and Mr. Hill, agent of the Reservoir, with the view of completing arrangements for the isolation of the small-pox patients at Eagle Hill. There are twelve persons in John Ward's house only two of whom are now down with the disease. As soon as the local board of health is permitted to remove the building and its contents will probably be destroyed by fire. Dr. Newton and Dr. Hill are now busy vaccinating, and every precaution is being taken to prevent the spread of the disease in this district. It is hoped that this vigilance will not be in the least relaxed but that every person will continue to exercise the greatest care. It is only by acting thus for several weeks to come that safety can be insured.

THE WEEK'S NEWS

1000.

A party of men have left Kingston to make preparations for beginning operations at the mine.

Maj. Smith, of the 47th Battalion, has accepted the command of the 14th Battalion, resigned by Colonel Kerr.

Two of the five grey children who were abandoned in Kingston have died of scarlet fever, and the others ill with the disease.

Military circles in Kingston are again excited over an order calling out Garrison company of the 14th Battalion for service duty in the barracks.

At a meeting of the Ontario Beavers Association, held in Toronto, it was decided to send a display of money to the Colonial and Indian Exhibition.

It is proposed to appoint a commission of eight engineers to enquire into and find a remedy for the periodical floods caused in Montreal by the rise in the St. Lawrence.

Two streets in Belleville have been flooded to a depth of two feet in consequence of the water having been dammed back by a snail boat at the mouth of the Moira river.

Great distress prevails on the north-east coast of Cape Horn, the cattle and sheep having been prevented from getting in their winter supplies by the severe weather.

The names of the parties who stole Miss Bennett's corpse from the vault at Sandhill, near Kingston, have been secured by the lady's relatives, who intend prosecuting them.

The floods in the western section of Montreal are gradually subsiding. Great distress exists among the people thrown out of employment by the stoppage of the various factories.

The plans and specifications for the deepening of the Welland canal have been prepared, and are on exhibition at the office of the Chief Engineer of the Department in Ottawa.

Lachlan McDonald, of Galt, has been arrested on the charge of attempting to murder his wife with an axe during a quarrel. Mrs. McDonald is in a very low condition from her wounds.

The Kingston School Board has decided to hold an investigation into the conduct of its employment, which is alleged to have been concerned in bringing the objectionable minstrel show to the city recently.

The survey of the Canadian Pacific air line from Smith Falls to Montreal, which is expected to be completed by the end of the month, and to be at least fifty miles, has commenced, and construction will be begun early in the spring.

Attorney General Macdonald has decided not to proceed further against Lewis A. McDonald, who is under arrest at Toronto on a charge of willful murder in causing the death of Wm. H. Barry, the corner's jay, having brought in a verdict of accidental death.

Five extensive warehouses, with their contents, were completely destroyed by the fire in Montreal the other morning, and several others more or less damaged by fire and water. The total loss is estimated at a little over \$200,000, with about \$100,000 insurance.

George McCabe, a former resident near London, Ont., who was reported to have died in Dakota a few days ago, after having confessed the murder of four wives and attempted to murder a fifth, turned up in Chicago the other day and denied the whole story.

A boarding-house at German, near Gravenhurst, caught fire early the other morning, the sleeping inmates, seventeen in number, being awakened by the flames. They narrowly escaped with their lives, and almost naked, several being so badly burned that their recovery is doubtful.

The practical joker sent round a sensation in Hamilton the other Sunday night by placing an imitation dynamite bomb in the doorway of a public building. It caused a scare which was founded, but on being found to contain only a lump of ice and a few harmless pieces of wire.

It is stated that, in response to representations made by the half-breeds in the Batavia district who in a starving condition, the Government have directed the Governor of the territory to supply food and clothing to those who may be found upon investigation to be in need of it.

At a meeting held in Ottawa of gentlemen engaged in collecting exhibits for the Colonial and Indian Exhibition, the little tap shoes already offered were thoroughly representative of the Dominion, and that, despite the large increase in space allotted, it would be difficult to find room to adequately display the various collections.

Early the other morning Abner Laing, Scotch, aged 48, was found lying in the snow at the corner of Queen and Hunter streets, Hamilton. He had his hands and face so badly frozen that the hospital physicians may have to amputate the limbs. Laing has only lived in Hamilton a short time and had been drinking.

The commission appointed to enquire into the loss of the steamer Algonquin have delivered their report, cancelling the certificate of Captain Moore and First Officer Haslip for twelve and six months respectively. The Minister of Marine has approved the decision, but owing to Captain Moore's previous good record has shortened the suspension of his certificate by three months.

The other night No. 26 mixed, going east on G. T. R. track an unknown man half a mile west of the station, and knocked him into the ditch. He was picked up, but life was found to be extinct. He was walking along the track at the time of the occurrence, and was not observed until the train was close upon him that the engine was unable to stop. The name of the railway men could not recognize him. It is supposed he was a tramp.

In boys from Newark, N. J., who were treated by M. Laster for hydrophobia, has arrived in this city.

There is now no doubt that the remains of Col. Wright and J. B. Balworth are buried in the ruins of the building collapsed at Louisville, Ky., the other day.

A commission of two gentlemen appointed by the American Fishery Union of New England to make a tour of inspection on an expedition against the renewal of a

reelocatory treaty with Canada have arrived in Halifax.

It is stated that the losses of outposts on the cold snap in Texas will amount to the millions. The water pools on the ranges are frozen and the grass is buried in snow, and the cattle are perishing by hundreds from cold and famine.

It is rumored in Rathfriland, Vt., that Mr. Neil, the defunct president of the Lancoast Bank, was buried by his assassin in Vermont and not allowed to escape to Canada. Mrs. McNeil is represented as believing that her husband is dead. The police detectives, who recovered the bank's money, are in Rathfriland at work on the murder theory.

Germany has seized the islands of Samoa in the Pacific ocean.

A society has been formed in Paris to police snoring dogs.

A snowstorm, which lasted fourteen hours, visited Vienna the other day.

A report is current in Cairo that an Arab army, advancing under El Khatib,

The Princess of Wales has almost recovered from the effects of her recent illness.

M. De Lesseps is confident that the Panama canal will be completed by the end of 1908.

It is understood the Earl of Carnarvon will shortly resign the Lord-Lieutenancy of Ireland.

The Duchess of Argyll, the Marquis of Lorne's stepmother, is now in a more hopeful condition.

The Duke of Westminster, a Liberal peer, believes England will never grant Home Rule to Ireland.

Prince Bismarck is the first Protestant that has ever received the decoration of the Order of Christ.

Mr. Justin McCarthy, the Nationalist member of Parliament, has severed his connection with the Daily News.

The London Telegraph says the conference of Paracelsus members of Parliament held in Dublin was a fiasco.

Sir Edward Thornton has arrived at Constantinople, and will shortly assume the duties of British ambassador.

The Dominion fishery exhibit at Ottawa will be packed for shipment to the Colonial and Indian Exhibition next week.

King Ludwig of Bavaria is living in the straitened straits, and it is stated in court circles that his Majesty is insane.

It is stated an ukase has been issued threatening the expulsion from Russia of all Frenchmen who have not been naturalized.

Sir Herbert E. Maxwell intends introducing a bill in the Imperial Parliament providing for the flogging of dyspeptics.

A Carlist chief, while assaulting monks in the streets of San Sebastian, got lost in a mountain gully and was frozen to death.

A mysterious murder is reported from Bordeaux, where a young woman was killed by a man who entered her room in disguise.

Six hundred convicts in the prison at Riom in the department of Puy-de-Dome, France, have revolted and secured possession of the prison.

The Imperial Government does not intend to prevent Mr. Bradburn sitting in the House of Commons as member for Northampton.

The municipal authorities of Paris have refused to pay the cost of a dancing school for the daughters of Oliver Pain, who lost his life in the Sudan.

M. de Lesseps says the French investment in the Suez Canal returned tenfold, and he expects the Panama canal would be equally fruitful.

A cyclone, having twenty minutes, passed over the middle counties of England lately, doing a great deal of damage to property. Two persons were killed.

An Irish High Sheriff, writing to the London Times, takes a very gloomy view of the situation. He says his force is approaching, and with it will come lawlessness.

The inhabitants of the Philippine Islands have subscribed \$10,000 to pay for the removal of the Spanish flag from the occupation of the islands by a foreign power.

Farmers in Wales are demanding a permanent reduction of 25 per cent. in their rates, on the ground of depression and for making improvements on their holdings.

The London Daily News says it is rumored the Government meditates a coup d'etat in Ireland, and that Mr. Walsley is to be appointed to the command of the military forces in that country.

An Alamo peasant sold his wife recently for an ex. and 200 marks, but when the bride was ready to leave the woman he heard her berating her husband with such a shrill tongue that he withdrew from the bargain.

A strange suicide and attempted murder is related by a Paris correspondent. A banker's clerk named Bastien waking in the night requested his wife to get him a drink of water, and while she was at it he put some muscadine and sugar in two glasses, and, filling them with water, asked her to join him in a drink of tea, and, drinking his glass down as he spoke, and expired almost instantly. The wife only took a mouthful and is severely ill.

Point of View.

We are apt to look at things from our own point of view. This practice saves one the trouble of changing position, but it is, at times, a curious view of things, as in the case of the sailor and the sympathetic lady passenger.

An English gentleman and his wife were coming over to the United States, upon an ocean steamer. Soon after they were fairly in blue water the crew became mutinous, and received a severe cut on the head from the hand of the captain, and in presence of the passengers.

The lady, who was beginning to suffer from sea-sickness, was much shocked and alarmed, and, after being related to her cabin, from which she did not venture again until they were almost in sight of land.

The first day she came on deck, the man she had seen struck down at the wheel. Approaching him with kindly interest, she inquired:

"How a year had you?"

"The sailor, who was used to rough usage and had had a long voyage, replied that his own head had received, thought the lady was inquiring about the ship's course, and he replied:

"West and by no means."

INVALIDE HOTEL AND SURGICAL INSTITUTE

No. 663 Main Street, BUFFALO, N. Y.

Not a Hospital, but a pleasant Remedial Home, organized with

A FULL STAFF OF EIGHTEEN PHYSICIANS AND SURGEONS,

And exclusively devoted to the treatment of all Chronic Diseases.

This imposing, Establishment was designed and erected to accommodate the large number of invalids who visit Buffalo from every State and Territory, as well as from many foreign lands, that they may avail themselves of the professional services of the Staff of skilled specialists in medicine and surgery that compose the Faculty of this widely-celebrated institution.

NOT ALWAYS NECESSARY TO SEE PATIENTS.

By our original system of diagnosis, we can treat many chronic diseases just as successfully without any personal consultation. While we are always glad to see our patients, and become acquainted with them, show them our institutions, and familiarize them with our system of treatment, yet we have had seen one person in five hundred whom we have cured. The perfect accuracy with which accurate are enabled to detect the nature of the disease, in it is not a marvelous degree of accuracy which enables an operator to exactly locate a fracture in a submarine cable nearly three thousand miles long? Our venerable doctor of the weather has become so thoroughly familiar with the most wayward elements of nature that he can accurately predict their movements. He can sit in Washington and forecast what the weather will be in Florida or New York as well as in several hundred miles did not prove between the two places named. And so in all departments of modern science, what is required is the knowledge of certain

signs of disease. From these scientists deduce accurate conclusions regardless of distance. So, in medicine, the science, disease, as well as all of the most approved kinds of apparatus for the application of sprays, fumigations, atomizations, pulverizations, inhalations, and all other forms of approved medicinal applications.

Recognizing the fact that no great institution dedicated exclusively to the treatment of chronic diseases, and the afflicted of our land, without the most perfect, complete and extensive provision for the most improved treatment of diseases of the air-passages and lungs, such as Asthma, Chronic Catarrh, Laryngitis, Bronchitis, Emphysema, etc., etc., as well as all of the most approved kinds of apparatus for the application of sprays, fumigations, atomizations, pulverizations, inhalations, and all other forms of approved medicinal applications.

The Tribune.

FRIDAY, JAN. 29, 1889.

For the first time the county councils of Hastings and Frontenac have elected Roman Catholics as Wardens. Messrs. Hogan and Kavanagh are men well qualified by business and municipal experience for the positions to which they have been elected.

The Salisbury administration has been defeated on an amendment to the address, and have tendered their resignation. The Parliamentists against the Government. It is supposed that Mr. Gladstone will be called on to form a government, and that he will endeavor to bring in a measure of home rule for Ireland. Never have British statesmen been confronted with such grave difficulties as those which now press for a solution.

The negotiations which are reported to be taking place between Great Britain and China in reference to Burma are fraught with the most important consequences. China has last awaking from the long sleep of centuries. The late war with France has convinced her that the railway and telegraph are absolute necessities if she is to retain the distant provinces of the empire. Concessions will be given to foreign capitalists which will enable them to construct lines of railway connecting the great commercial centres. Through Burma English manufacturers will be enabled to push their trade into the west and south of the great empire of the east. No argument is required to show that when a nation of 400,000,000 is opened to commerce the results must be far reaching. Doubtless one of the first effects must be a vast impulse to British commerce, which by the principle of free trade will be enabled to monopolize the trade of those old regions of Asia.

ONTARIO boasts of the excellence of its school system, and in many respects that system is deservedly worthy of the highest commendation. In some respects the results are not commensurate with the expenditure of money, or the efforts put forth by the instructors of the youth of our land. In nothing is this more noticeable than in the general disinclination to reading, which unfortunately obtains in the households of Canada. As readers of instructive books our people do not rank with those of the United States, much less with those of the mother country. It is difficult to determine the cause of such a condition of things. The young are taught to read—and to read well—in our schools, but they do not appear to contract that love of reading which might be expected. Books are now published and sold at prices which place them within the reach of all, but how many of our young men and women are found spending a dollar in that way? How many of our people old or young spend a whole evening poring over the pages of a book? It may safely be asserted that their number is comparatively small. It were well if our leading educators would enquire into and account, if possible, for this aversion to healthy reading on the part of our people. Are our school books really the best, or is the system employed in our schools of such a character as to stimulate pupils to gain an acquaintance with the best authors or even with the current literature of the day?

COUNTY COUNCIL.

The County Council met last Tuesday and was called to order by the County Clerk. Mr. W. R. Aylsworth, after expressing his gratification at being present once more in the Council, and referred to the death of Mr. McGregor, and a respected member of the Council, nominated Mr. D. R. Kavanagh, Reeve of Duncannon and Faraday, for the Wardenship. The nomination was seconded by Mr. Vermilyea. Messrs. J. C. Hanley, Tuttle, Ashley, and Faulkner were also nominated, but declined in favor of Mr. Kavanagh, who was therefore elected by acclamation.

Having taken the oath of office he thanked the members for the honor, first, because he was the first Warden from the rear township, and secondly, because he was the first Roman Catholic warden the county ever had.

A number of petitions and a mass of correspondence were laid on the table and referred to the proper committees.

Mr. Ashley reported that the committee appointed for the purpose had made a satisfactory arrangement with the Merchants Bank.

James Lang, who has labored on the gravel road, petitioned for assistance.

A resolution of condolence with the family of the late Mr. McGregor, Reeve of Wollaston, was passed by a standing vote. The Council then adjourned until Wednesday.

Lovers of Black Tea should buy a package of "Kings Valley" at THE BIG STORE. O'Brien Harper's *Bazaar and Weekly Magazine* from the Deseronto News Company, agents for Deseronto.

So much is the demand for the Big Store's 50 cent tea, that Mr. Richardson has this month placed an order in New York for a second lot of twenty-five chests. First class goods and low prices take the trade.

Mexico is said to possess only about 100 factories of all kinds, owing to the paucity of water and the high cost of fuel. These factories employ about 13,000 hands, and those devoted to weaving contain 9,500 men and 250,000 spindles. The largest cotton mill is at Queretaro, employs 1,470 hands and manufactures the unbleached cloth worn by all Indians.

FRATERNAL FORESTERS.

A large party of Foresters from Picton Court drove over on a fraternal visit to their brethren in Deseronto last Tuesday evening. They attended the session of Deseronto Court where the proceedings were of a very enjoyable character. After the meeting the whole party adjourned to the Deseronto House, where the visitors were entertained by the Deseronto brethren to an oyster supper, which was served by nine host daymen in a manner more than creditable. The oysters and clams were as excellently related, there being a good seasoning of jokes and pleasantries from the whole party. Chief Ranger Hoppes presided on the occasion. Bro. Palmer of Picton, and some local brethren of great staying powers having been at last completely satisfied he proceeded to propose several toasts. "The Queen" was received with much enthusiasm. The "Governor General" was coupled with the name of Bro. Palmer, of Picton, who gave a neat speech, stating that Lord Lansdowne had not had many opportunities of displaying his genius. He was an Irishman, and that fact brought up the question of Ireland in his mind. He hoped that country would get some satisfactory solution of the present difficulties.

"Court Picton" was the next toast. It was responded to by Chief Ranger Murray, who expressed the pleasure it afforded the Picton brethren to be present on this occasion. It was one of the principles of Forestry to consider the welfare of those dependent on them. No other organization could offer such a satisfactory and liberal system of benefits and insurance. It behooved them all to work earnestly for the good of the order. On behalf of Court Picton he thanked them for their kind hospitality.

"The Army and Navy" brought up a number of veterans of both arms of the service, including Bro. Jas. Stokes, who would be never fired a shot; Bro. Ostrander, who pleaded excuse being on the sick and disabled list; Capt. O'Hagan, a gallant old salt; and Bro. Hoppes, who recounted some of his experience in the American Civil war, bringing out the important fact that he had witnessed the famous fight between the Merrimack and Monitor.

"The Press" was responded to by a Tarzont representative.

In answer to a general call, Bro. S. Green next favored all with a speech. He claimed he was a real Forester, being a son of the forest. He referred to the unquestionable superiority of the Foresters over other benefit and insurance societies. They paid all claims within six days. He was glad to hear of the continued success of Picton Court, who by their zeal were showing themselves examples to others.

"The Ladies" found able and eloquent champion in Bro. Tyner, the youngest member present, Moffat, Williams, Carter and Palmer.

In answer to a general call, Bro. S. Green next favored all with a speech. He claimed he was a real Forester, being a son of the forest. He referred to the unquestionable superiority of the Foresters over other benefit and insurance societies. They paid all claims within six days. He was glad to hear of the continued success of Picton Court, who by their zeal were showing themselves examples to others.

"My Father's Goat" brought the very pleasant reception to a close, and it is to be hoped that it is not the last of these happy gatherings we will have to record this season.

DISTRICT.

Mr. Kinnemery has been appointed assessor of Napanee on a salary of \$125.

The new Roman Catholic Church at Clayton will be of cut stone and cost \$60,000.

Thos. Hagen, Reeve of Wolfe Island, was unanimously elected Reeve of Frontenac.

The new bridge to be built over Deer Creek in the village of Madoc will cost \$2,800.

The Bishop of Ontario has appointed Rev. T. Bailey, of Cardinal, to the incumbency of Arnprior.

The part of Trenton lying east of the river and north of the bridge is suffering badly from a flood.

An agitation is in progress for a harbor at West Lake. It is said the cost of work would be trifling.

The Grand Trunk Railway Company is asking for tenders for the construction of the line from Madoc to El Dorado.

Mrs. Thos. Hill, Colborne, died recently from the effect of injuries received by her clothes catching fire from a stove.

The Napanee Council will confer with Sir Richard Cartwright on the subject of constructing a water works for that town.

Shaver, the Belleville bigamist, proves to be one Cyrus E. Seymour, of the township of Mountain. He has three wives all told.

The recent fire in Kingston reveals the fact that the water supply is sadly deficient and things generally in a very demoralized condition.

Skinners' drug store in Kingston was gutted by fire last Saturday morning and other buildings also damaged. While the fire was in progress Henry Horsey was caught in the act of setting fire to another shop. He is of a respectable family and is supposed to have been the author of many former incendiary fires.

Joseph Brenton, formerly of the 4th con. of Tyndalton, but now living in Rawdon, on Wednesday 20th, went to get wood from an island in the Trent river and while driving 150 feet from a well beaten road his team broke through the ice and perished before he could get assistance to rescue them. The water was 25 feet deep, and Mr. Brenton had a very narrow escape from being drowned in trying to save his team.

On Saturday night the new Queen-street church, Kingston, only in use for a few months, was destroyed by fire. The conflagration originated in the furnace room and quickly spread to the whole of the building. A quantity of water militated against the action of the firemen, otherwise they might have saved the building in a partially ruined condition. The church and organ are valued at \$25,000. The insurance is \$10,000 and the debt \$7,000. The leaders of the congregation met on Sunday afternoon, and decided to secure a hall for temporary occupation, and to rebuild at once.

CANADIAN ALMANAC for 1889 for sale at THE TRIBUNE OFFICE. They contain a great amount of useful information.

DESERONTO MARKET.

Deseronto, Jan. 28th 1889.

NEW SERIES SCHOOL READERS.

A new supply of well selected books by popular authors at prices from 10 cts. up.

JUST OPENED

\$2,000 worth of New Staple Dry Goods, —AND—

50 SUITS OF MENS' CLOTHING,

Which will be sold at Prices Cheaper than

you ever bought them.

Deseronto, Nov. 19th.

C. GOODMURPHY.

THE CANADA WIRE MATTRESS CO.

Are manufacturing the BEST and CHEAPEST mattress in the market.

Any person in want of a good durable mattress at a moderate price, should call at the BIG STORE where the above will be kept constantly on hand.

HUDSON'S BAY TERRITORIES.

Interesting Observations of the Country by a Scientist.

Prof. Ball, M. D., LL. D., of the Geological Survey, lectured on the above subject in Ottawa the other night. He began his subject by describing the great Hudson's Bay, which, he said, might rather be called Hudson's Sea, and which was the Mediterranean of North America. The Hudson's Bay country included in the Hudson's Bay territories were next described under the head of forests, prairie, plains, and barrens. Only fifteen years ago he had made a journey through the Northwest territories, when the buffalo was still abundant and the Indians held

POSSESSION OF THE COUNTRY.

Complete revolution in the state of affairs had taken place since then. An interesting account was given of the method of conducting canoe journeys in the forest region around Hudson's Bay, and also some anecdotes illustrating the character and habits of the Indians of this district, one of which, relating to a bear feast, was very amusing. The lecturer also explained a process by which the distance between the micrometer telescope, which requires but little more time than the ordinary survey for the journey without the survey. Some exciting adventures were related in connection with a survey of the Albany river, after Dr. Ball and a few white men who accompanied him had been deserted by their Indians. The north-western part of the Hudson's Bay territory was next described as a great unnamed district which adjoins it immediately to the north. It was a compact almost rectangular district, larger than all the Maritime provinces together. It measured over 300 by 350 miles, and included considerable tracts of land over 500 square miles. It was bounded north by

HUDSON'S BAY and south by the great Albany river, east by James Bay and west by the District of Keewatin. It did not form part of the N. W. Territories, was far from the so-called "N. E. Territory" and was not included in any of the provincial districts which have been established. In fact, it is left out and the cold in all our maps. As it requires a name for convenience of description Dr. Ball proposed that since much of it belongs to the Severn district of the Hudson's Bay company, this name be extended and adopted for the whole of the district described. The lecturer gave interesting accounts of several canoeing voyages to small lakes which he had made around Hudson's Bay. In returning from one of these, he had sailed for over 500 miles, and had been driven back through the middle of James Bay, far out of sight of land in the fall of the year when there is great danger from gales of wind. The

SCENERY OF THE EAST MAIN

scenery was illustrated by a number of fine colored drawings. It was made to the supposed tragic end of the great navigator, Henry Hudson, who discovered the bay in 1609 and who was afterwards killed by a few men in a boat on the Hudson's river in 1610. At this took place near the land the lecturer thought it very improbable that Hudson's party were killed by the Indians, and he said that he believed that the Eskimo settlements at which the Hudson's crew were afterwards murdered. He next gave an account of a wonderful Murle Island on the west side of the bay, 300 miles north of the Hudson's Bay. Prince of Wales stands at the latter place and is the largest military ruin in North America unless Quebec under this designation. It is over 300 miles square and mounted forty guns, still lie about on the walls.

As many of our readers will be interested in what Dr. Ball has to say about the Church mission, we give his remarks upon it almost in full:

The present Hudson's Bay Company's post is five miles up the river from the mouth. It occupies a sort of neutral position in regard to the natives. It is visited by the Cree from the west, the Chipewyan from the west, and the Eskimo from the north. It is therefore considered an important point for a mission by the Episcopal Bishop of Montreal, who has been twelve times as large as all England. He has appointed a clergyman, the Rev. Mr. Lethbridge, to the post. There is a small church of galvanized iron which was brought out from England some years ago, but he had found it impossible to send the materials for a mission house until the past year, when the generous citizens of Ottawa came to the rescue. At a request of the Rev. Mr. Lethbridge and the lecturer, the missionary of this city, who are mostly Presbyterians, very liberally presented the lumber and place on the coast, while the managers of the Canada Atlantic and the Grand Trunk railways and the Hon. Mr. Pope, minister of railways, conveyed it free

FROM OTTAWA TO HALIFAX.

The Hon. Mr. McLean and Mr. Wm. Smith, of the department of marine, allowed them to take it out on the deck of the "Alert." It was delivered at the far left of the Cape of Good Hope after a round of about 4,000 miles without costing the Bishop a single dollar. To prove as good a house as sent out from England would have cost him about a thousand pounds sterling, which the mission fund of his diocese could ill afford. The hardware, glass, cooking stoves, pipes, &c., were brought with a grant of money from the mission board of the Diocese of Ontario, and six painted doors, windows and frame and six storm sashes were purchased in Halifax, principally with money collected by Mr. Lethbridge from that city. The only piece of original geographical work which was done last summer on the Hudson's Bay expedition was to make a survey of a hitherto almost unknown group of islands in the bay, about 100 miles long. He proposed for then the name of the Ottawa islands and they also gave names to the different members of the group, as original surveys of new places had a right to do. They were called Portage, Lake, Roseau, Wabigoon, Bore, Gordon, Algonquin, Eddy, Lundy, Hudson, Pope, McLean, and Augustus Allison. Some of the islands are several miles across, and they are all high and held rising from 1,000 to 2,000 feet.

THE BATTLE OF LACOLLE MILL.

An Incident of 1844—Fighting to Flight a Vastly Superior Force of Indians.

BY E. L. FORT HOPE.

The battle of Lacolle Mill is an old story, so, old, that almost its only record is history, and it is that history which the fact that such a battle was fought and won by the British. No account is given there of the undying devotion and heroic bravery of the noble few, who for long hours, though greatly outnumbered, kept the enemy at bay, and added to the many misdeeds of the great which attended the American army.

The following account of the battle was given in substance by an old lady, who was an eye-witness of many incidents here spoken of. She is yet an honored resident of the township of Burlington in this country (Durham) and she may be long remembered.

"Yes, I was quite young then, and though year has been added to year, rapidly, it has not forgotten me. I thought of it often at all, it is merely as an episode unimportant in itself, not as a test of that loyalty that our Mother Country, practically shown at the battle of Lacolle Mill, and the honor of our country, in that unjust and unnatural war in which the Americans strove so determinedly to conquer us."

"My earliest recollections are intimately connected with the township of Hemmingford in the County of Hastings. Province of Quebec, where I was born. My grandfather, an old U. E. Loyalist of the Revolution, was a member of the United States army, and he was the founder of the township near which I now live. I am told—but then it consisted of little more than a name."

"In 1811, our family, which then consisted of father, mother, and six children, moved to Lacolle Mill, about sixteen miles from Hemmingford, and settled on a farm which was situated about a mile from the battle of Lacolle Mill."

"In 1812 the United States declared war against England, and as that part of Canada and United States territory joined, it was subject to many invasions or raids of armed men. I remember the fear and our terror on all sides when it would be reported that the enemy were coming. On these occasions the Americans would plunder the settlers, and then they would then away again. So you can see we had ample reason to feel uneasy. At length this summer a Frenchman, a Frenchman, saying that a company was formed called the 'Warriors,' to resist these invaders."

"The war had now been in progress two years, and the country had been made by the Americans to invade Canada, with very different success. At length another invasion was determined upon by way of Lake Champlain and the E-boulet river. The chief object of this invasion was to take Montreal. Along this route, previous to this, there had been stationed small bodies of British troops and militia, and it was necessary for the Americans to drive away or capture these several detachments as they advanced."

"Among the strongest and most important of these stations was Lacolle Mill, situated near the mouth of a small stream which empties into the north end of the lake. It was important, because, situated at the foot of the lake, near the boundary, and on the principal road, it hence commanded all the approaches north. So you can see why the Americans wished to obtain possession of it. Having done so they would not doubt have held it as a base of operations in their contemplated attack on Montreal."

"The old mill—I can see it yet in my memory—was a stone building intended for a grist mill, but now turned into a fortress. Many of the windows had been removed and replaced with stout oak plank loopholes for muskets. Altogether it was a place of considerable strength."

"For many days rumors of the intended invasion, on a larger scale than usual, had reached us—an invasion that was to drive us from our homes or else force from us the power of resistance."

"At length, early in the morning of the 30th of March, the alarm was given that the enemy was approaching. Father and Mr. Quillier, grandsons of Mr. Quillier, teacher of E-boulet, were at breakfast together. They immediately arose from

the table, took their guns quite unconcerned, and went out to see the state of the feelings mother and her little ones must have been in when thus left alone, father taking the others to make a stand and oppose the further advance of the enemy. Our fears were not in the least allayed when a British soldier, a Captain Blake, I shall never forget his name, I assure you—with a number of Regulars came up and ordered us to leave the house and go into the mill. Mother represented to him how impossible this was, that the house was very comfortable, and by that time the enemy were likely between them and the mill and of the greater safety of remaining in the house. He rudely ordered us out, telling us to go to the woods, that he wished to see the house as a fort to the stand against the enemy. Whether or not this was true I cannot say, for very soon after we left, a detachment of the enemy appeared in sight and they, seeing the house occupied, with red coats, extended their flanks right and left, in order to surround the house, and if possible capture those within. The British soldiers did not wait for this, however, for seeing that they were greatly outnumbered left the house and ran for the woods."

"Mother, with the rest of us, at this time had got quite a distance away, but, hampered as we were with her little ones, we were not able to get far. The rest of the family, however, and the women, were very deep we could move only with great difficulty. The redcoats soon overtook and passed us, and I felt very much annoyed to assist us in any way. Floundering and falling in the snow we tried to keep up with the others, but they soon disappeared from our sight, having reached a dense grove of young hemlock, where they had been failed to retard the passage of the enemy. Finding our long and brush we at last became completely bewildered, and could go no farther. It was at this instant that mother caught sight of the enemy, with their guns raised, just in the act of firing at us. She screamed for us to close to the ground, but before we could comprehend and comply with her wishes they fired, the enemy discharge seeming to rain on my side, and fall on my face. At the same time my poor brother was thrown backward by the force of the shot. He had been shot in the neck and foot. It is with great difficulty that I can now say any of us escaped, for the Americans, a large number of them, were quite near us, and now with the exception of my brother and myself, we were all killed or wounded. There were many places with bullets, (I must have been a kind Providence who watched over us, for had he not said that a company was formed called the 'Warriors,' to resist these invaders."

"The old mill—I can see it yet in my memory—was a stone building intended for a grist mill, but now turned into a fortress. Many of the windows had been removed and replaced with stout oak plank loopholes for muskets. Altogether it was a place of considerable strength."

"For many days rumors of the intended invasion, on a larger scale than usual, had reached us—an invasion that was to drive us from our homes or else force from us the power of resistance."

THE BATTLE OF LACOLLE MILL.

An Incident of 1844—Fighting to Flight a Vastly Superior Force of Indians.

BY E. L. FORT HOPE.

The battle of Lacolle Mill is an old story, so, old, that almost its only record is history, and it is that history which the fact that such a battle was fought and won by the British. No account is given there of the undying devotion and heroic bravery of the noble few, who for long hours, though greatly outnumbered, kept the enemy at bay, and added to the many misdeeds of the great which attended the American army.

The following account of the battle was given in substance by an old lady, who was an eye-witness of many incidents here spoken of. She is yet an honored resident of the township of Burlington in this country (Durham) and she may be long remembered.

"Yes, I was quite young then, and though year has been added to year, rapidly, it has not forgotten me. I thought of it often at all, it is merely as an episode unimportant in itself, not as a test of that loyalty that our Mother Country, practically shown at the battle of Lacolle Mill, and the honor of our country, in that unjust and unnatural war in which the Americans strove so determinedly to conquer us."

"My earliest recollections are intimately connected with the township of Hemmingford in the County of Hastings. Province of Quebec, where I was born. My grandfather, an old U. E. Loyalist of the Revolution, was a member of the United States army, and he was the founder of the township near which I now live. I am told—but then it consisted of little more than a name."

"In 1811, our family, which then consisted of father, mother, and six children, moved to Lacolle Mill, about sixteen miles from Hemmingford, and settled on a farm which was situated about a mile from the battle of Lacolle Mill."

"In 1812 the United States declared war against England, and as that part of Canada and United States territory joined, it was subject to many invasions or raids of armed men. I remember the fear and our terror on all sides when it would be reported that the enemy were coming. On these occasions the Americans would plunder the settlers, and then they would then away again. So you can see we had ample reason to feel uneasy. At length this summer a Frenchman, a Frenchman, saying that a company was formed called the 'Warriors,' to resist these invaders."

"The war had now been in progress two years, and the country had been made by the Americans to invade Canada, with very different success. At length another invasion was determined upon by way of Lake Champlain and the E-boulet river. The chief object of this invasion was to take Montreal. Along this route, previous to this, there had been stationed small bodies of British troops and militia, and it was necessary for the Americans to drive away or capture these several detachments as they advanced."

"Among the strongest and most important of these stations was Lacolle Mill, situated near the mouth of a small stream which empties into the north end of the lake. It was important, because, situated at the foot of the lake, near the boundary, and on the principal road, it hence commanded all the approaches north. So you can see why the Americans wished to obtain possession of it. Having done so they would not doubt have held it as a base of operations in their contemplated attack on Montreal."

"The old mill—I can see it yet in my memory—was a stone building intended for a grist mill, but now turned into a fortress. Many of the windows had been removed and replaced with stout oak plank loopholes for muskets. Altogether it was a place of considerable strength."

"For many days rumors of the intended invasion, on a larger scale than usual, had reached us—an invasion that was to drive us from our homes or else force from us the power of resistance."

"At length, early in the morning of the 30th of March, the alarm was given that the enemy was approaching. Father and Mr. Quillier, grandsons of Mr. Quillier, teacher of E-boulet, were at breakfast together. They immediately arose from

the table, took their guns quite unconcerned, and went out to see the state of the feelings mother and her little ones must have been in when thus left alone, father taking the others to make a stand and oppose the further advance of the enemy. Our fears were not in the least allayed when a British soldier, a Captain Blake, I shall never forget his name, I assure you—with a number of Regulars came up and ordered us to leave the house and go into the mill. Mother represented to him how impossible this was, that the house was very comfortable, and by that time the enemy were likely between them and the mill and of the greater safety of remaining in the house. He rudely ordered us out, telling us to go to the woods, that he wished to see the house as a fort to the stand against the enemy. Whether or not this was true I cannot say, for very soon after we left, a detachment of the enemy appeared in sight and they, seeing the house occupied, with red coats, extended their flanks right and left, in order to surround the house, and if possible capture those within. The British soldiers did not wait for this, however, for seeing that they were greatly outnumbered left the house and ran for the woods."

"Mother, with the rest of us, at this time had got quite a distance away, but, hampered as we were with her little ones, we were not able to get far. The rest of the family, however, and the women, were very deep we could move only with great difficulty. The redcoats soon overtook and passed us, and I felt very much annoyed to assist us in any way. Floundering and falling in the snow we tried to keep up with the others, but they soon disappeared from our sight, having reached a dense grove of young hemlock, where they had been failed to retard the passage of the enemy. Finding our long and brush we at last became completely bewildered, and could go no farther. It was at this instant that mother caught sight of the enemy, with their guns raised, just in the act of firing at us. She screamed for us to close to the ground, but before we could comprehend and comply with her wishes they fired, the enemy discharge seeming to rain on my side, and fall on my face. At the same time my poor brother was thrown backward by the force of the shot. He had been shot in the neck and foot. It is with great difficulty that I can now say any of us escaped, for the Americans, a large number of them, were quite near us, and now with the exception of my brother and myself, we were all killed or wounded. There were many places with bullets, (I must have been a kind Providence who watched over us, for had he not said that a company was formed called the 'Warriors,' to resist these invaders."

CORRESPONDENCE

GREEN POINT.

(From Our Own Correspondent.)

Mr. Walter Robin, who has been very low with erysipela, is apparently recovering.

Mr. James Wood, a life long resident of the high above, is in his 84th year, quite feeble and apparently sinking, with cold age.

The residence of Mr. Thomas N. Robin was the scene on Monday evening of a large gathering, mostly young people. A pleasant night was spent in tripping the "light fantastic."

Mr. Herman Cole, who has been suffering with an affection of the eyes all winter, is a great sufferer with but little hope of recovery. Mr. Cole is in his 82nd year. Mrs. Cole is also afflicted but able to get around the house.

Mr. H. Carman, started for Deseronto on Friday last; in crossing the channel his horse slipped through the ice. Assistance was soon on hand and old horse, harness and Mr. C. on his way to market, where he apologized to the clerk for getting on the market so late. You will do "aid the clerk" for an excuse.

The Sophiasburgh Council met on Monday, 18th inst., in the Township Hall, Deseronto. There were present: Reeves, S. N. Smith, Dep. Reeves, S. J. Collier, Council: J. A. Vandusen, A. G. Gosselin and D. B. Coudige. This being the first meeting of the new council the following township officers were appointed: Clerk, J. B. Barton; Sprague, Collector, G. M. Ainsworth; J. A. Gosselin, and other officers of a subordinate character.

On Friday evening last about 40 of the neighbors met at the residence of Mr. John Shortt, where they were cordially received by Mr. & Mrs. Vandusen and made comfortable. The evening was spent very pleasantly; a sumptuous tea was served, and after tea various games, music and singing were the order of the entertainment; all expressed themselves well pleased with the entertainment. The only thing serious was two young men falling in love with one of our ladies with auburn hair. As near as your correspondent can learn the boys before retiring came to a settlement by flipping cozzers; Mr. E. Robinson, of Marquette, being the lucky man. If Mr. W. Fralick should take to the woods don't send Mr. E. Robinson after him.

SHANNONVILLE.

(From Our Own Correspondent.)

The Methodist Tea Meeting held in the Masonic Hall on the evening of the 20th was an encouraging success. The ladies of the congregation were most liberal in their supply of edibles. After an entertainment was given, consisting of songs and recitations, which were enjoyed by the audience. The most pleasing feature of the evening was the presentation of a beautiful Silver Butter Dish to Miss Nettie Clark, organist of the M. C. from the members of the same, as a slight token of their appreciation of her services. Addresses were delivered by the Revs. G. Leech, of Belleville, D. O. Crossley, of Deseronto, and W. B. Peak, resident of Shannonville.

The Council will meet on Tuesday the 2nd of February. Mr. Chas. Simpkins will act in the Clerk's place.

The small-pox outbreak at Eagle Hill has caused some little excitement in the village. It is hoped that the epidemic will not spread through the township.

READ.

(From Our Own Correspondent.)

Miss Clancy of Toronto who has been on a visit for the last few weeks at Mrs. Denis Hanley's left for Belleville on Tuesday on her return home.

Professor Lyness after an absence of two weeks presided at the organ in St. Charles last Sunday. The singing of the choir was remarkably good. Mrs. John Brennan's voice was heard to good advantage the notes ringing out clear and strong showing her to be an accomplished musician.

Our respected friend Mr. Dillon who has been visiting his friends in Richmond and the east has returned home.

Many amusing incidents occurred during the recent snow-storm and drift. One young lady disappeared in a snowbank but was soon dug out by active and willing hands.

Mr. Edward McNeil, formerly of Prince Edward County but now of Olga, Dakota, is visiting his friends in this part of the county. He has sold his fine farm in Prince Edward and intends returning to Dakota next month.

Mr. John Malone and Mr. Michael Callaghan, who have lately returned from Dakota on a visit were married in Belleville last week to two sisters the Misses Sullivan daughters of the late Mr. Timothy Sullivan of the 9th con. We wish our young friends every happiness. The happy couples are visiting their many friends around here and intend shortly returning to Dakota.

The wedding bells are happily again ringing here. One of our well known and popular bachelors has forsaken single life and joined the noble army of bachelors. It was with much pleasure to announce this week that Mr. Patrick McKinnon on Monday last led to the altar Miss Maggie Candan the lovely and accomplished daughter of Mr. Martin Candan of the 8th con. The ceremony was performed by the Rev. Father McCarthy. The bride looked the picture of loveliness and was dressed tastefully and fashionably. Being a native of the north and dreaming I dare not venture to give you a description of the bridal costume. The bride was attended by her sisters Miss Sarah Anne Candan who was also handsomely and fashionably dressed. Mr. Edward O'Reilly acted as best man on the occasion and discharged his delicate duties nobly. After the wedding ceremony the bridal party left for the residence of the bride's father where the wedding festivities took place and everything went merrily as a marriage bell. We wish the newly married couple every happiness and trust that they may have a prosperous voyage through the sea of life, and may they live to celebrate their golden wedding at home. Mr. & Mrs. McKinnon are a general favorite and will no doubt prove quite an acquisition to this neighborhood. We trust that many of our bachelors will now follow our friend Pat's good example. It will afford us great pleasure to chronicle such events and the Reverend gentleman on his hill will only be too glad to tie the

nuptial knot. Come boys hurry up for you know delays are dangerous and send in your drafts on the bank of Cupid before it gets too late.

The reported outbreak of small-pox in the Indian woods has caused a good deal of alarm and excitement. The Board of Health for this township took immediate action in the matter. The board consists of the Reeve, Deputy Reeve West, the clerk, Dr. Hudson, Dr. Kestner, of Lonsdale, Shannonville, Dr. Kestner, of Lonsdale, being health officers. The board will meet again next Tuesday to consider what further steps if any may be necessary. It is asked that all persons who have not been vaccinated, should be at once and that is to be rigidly enforced through the township. These towns have been erected on Eagle Hill and guards placed so as to cut off all communication.

The township council will meet next Tuesday for the purpose of appointing path-masters, pound keepers, &c. All persons interested in these matters will please take note and govern themselves accordingly. The council will be glad to hear any suggestions which any person may have to offer in connection with these matters.

The weather has been very cold and stormy, but on Tuesday the weather turned very mild.

The contractor for the building of Mr. Kennedy's barn on the 4th con. was Mr. Michael Gaffney, not Mr. Peter Gaffney as stated in our last issue.

Extensive alterations are about being made in the interior of St. Charles Church. Two new galleries are to be erected in the wings. This will give much larger seating capacity to the building many being at present without pews. The committee will shortly meet and give out the contract.

HAY BAY.

(From Our Own Correspondent.)

News are and times dull on account of the recent snow, which left the roads impassable until they were shovelled out.

Mr. Willard Woodcock and sister are visiting their sister Mrs. Visser at Berwick, in the County of Stormont.

Mr. A. W. Hawley and wife are visiting friends in Kingston.

Miss Darcy of Bath, is visiting Mrs. A. R. Hermance, of Gosport.

A couple of cases of scarlet fever are reported on the east side of the bay.

Mr. Gilbert Casey, of Adolphustown, died on the 14th and was buried on the 16th; the funeral was largely attended.

The boys of the bay had some excellent skating for about a month in the forepart of the winter and all improved their time.

Through the negligence of the trustees our school is not likely to start until the 1st of April.

On account of the blocked roads the mail failed to reach Brudenell and Macdonald on Saturday of last week, but was forwarded on Monday.

TYENDINAGA RESERVE.

(From Our Own Correspondent.)

Small-pox is not spreading any further. On Friday last Joseph Maracle while engaged in loading wood in his woods, accidentally fell and lodged on a small stump, fracturing one rib. Dr. Newton was called to attend the fracture, and reports nothing serious.

On Friday eve last a fandango social assembled at the residence of Mrs. Hill; many were present and report a good time. Owing to small-pox in existence the majority of the people on the Reserve claim it advisable to close fandango socials as well as the churches and schools, which were all closed throughout the reserve.

Chief S. Loft has been on the sick list for the last three weeks; he is now on the mend, though slowly.

Mr. Mitchell Benedict, of Cornwall Island, made a pleasant visit among his friends on the reserve, and returned to his home on Saturday last.

Mr. Tim Farabee, road contractor, is busy drawing gravel banking along Deseronto and Mayville road, for the convenience of spreading it on the said road at an early season next summer. That's right Tim, we have no objection.

Mr. Wm. Maracle, of New Port, Ont., is visiting many friends on the reserve. He is a pleasant old man to chat with.

Owing to dissatisfaction in the distribution of the money granted for the purpose of building houses on the reserve, work is stopped until satisfaction exists. Chiefs Colburn and Johnson were appointed a delegation to interview the Superintendent General of Indian affairs on the matter. All are waiting patiently for a good accomplishment.

Owing to the tremendous snow storm last week there is a blockade of the roads in this section and the highway commissioner would be thanked highly if he would see that the roads were open again for traffic.

Dr. Ahwanneakah of Grand River, accompanied by his wife and son, are the guests of Mr. David Smith. The doctor informs us that after their departure from the reserve they are going to Kansas City, Kas., where he will open an office for his future practice. The doctor has been successful with his patients, and we wish him success in the future.

A LARGH crowd of people returning from surprise party in the vicinity of Empey Hill, came to grief through the upsetting of the sleigh during the blinding snow storm on Saturday morning last. Two women and a baby started to take refuge in the Deseronto Junction Station, and after many misadventures of slipping and falling guard at the crossing was not the least, they arrived at the office, where they were hospitably entertained by Conductor Coughlin, who was waiting there for his train for No. 4 Express. Had they not quickly reached this refuge the probability is that the baby would have frozen to death the morning being unusually cold.

Do not allow the twine to make their beds on the manure heap. The heat which develops there by the process of fermentation is not wholesome for them nor conducive to the making of good, wholesome pork. For the sows which are with piglets this excessive heat is very injurious, and often, at a loss of the whole litter of pigs. They may be allowed to root in the manure heap during the day, and even encouraged to do so by scattering of a little corn among them, but they should not have their bed of dry straw, and they will soon learn to prefer it to any other place, if it is only dry and sheltered from winds.

"LADY OF LYONS"
